

Semi-Automatic Rifles

First Choice

OF AMERICAN MARKSMEN

American invented and perfected semi-automatic action for rifles... the action that allows you to fire as fast as you can pull the trigger! Semi-automatic action greatly increases the "fire power" of military guns... makes sporting rifles more adaptable to all kinds of shooting. Semi-automatics, like the Rangers on this page are used only in rapid fire to fully automatics, or machine guns, that fire as long as the trigger is held down. In these 22-Cal. Rangers, Sears bring you five of the most modern rifles you can buy, at money-saving prices.

Order the gun you want—Today! Easy Terms are available. See Inside Back Cover.

* Sling swivels screwed into full length stock. Top, grain, comblike leather sling, in each military style.

* Leaf-style rear peep sight, similar to one on the Training sub-machine gun. Adjusts for elevation.

* Three-bladed butt hands securely hold full length stock and top hand guard to barrel, make gun one durable unit.

* Peep-type front sight, "winged" sight guard helps to center sight, protect sight against bumps and scrapes.

From its steel butt plate to the sturdy, front sight guard, this exclusive Sears design RANGER is built to take the same kind of killing punishment that military rifles endure. It has fine gun accuracy and lightning fast, semi-automatic firing! The full length, two-piece, genuine walnut stock was designed especially for Sears by E. C. Bishop, famous custom stock maker.
