Because They Hate Brigitte Gabriel,2024-07-02 Brigitte Gabriel lost her childhood to militant Islam In 1975 she was ten years old and living in Southern Lebanon when militant Muslims from throughout the Middle East poured into her country and declared jihad against the Lebanese Christians Lebanon was the only Christian influenced country in the Middle East and the Lebanese Civil War was the first front in what has become the worldwide jihad of fundamentalist Islam against non Muslim peoples For seven years Brigitte and her parents lived in an underground bomb shelter They had no running water or electricity and very little food at times they were reduced to boiling grass to survive Because They Hate is a political wake up call told through a very personal memoir frame Brigitte warns that the US is threatened by fundamentalist Islamic theology in the same way Lebanon was radical Islam will stop at nothing short of domination of all non Muslim countries Gabriel saw this mission start in Lebanon and she refuses to stand silently by while it happens here Gabriel sees in the West a lack of understanding and a blatant ignorance of the ways and thinking of the Middle East She also points out mistakes the West has made in consistently underestimating the single mindedness with which fundamentalist Islam has pursued its goals over the past thirty years Fiercely articulate and passionately committed Gabriel tells her own story as well as outlines the history social movements and religious divisions that have led to this critical historical conflict *Become Who You Were Born to Be* Brian Souza,2007-04-10 Do you ever feel burned out beat up or just plain bored wondering Is this all there is Do you ever feel trapped in a stressful job that leaves you unhappy and unsatisfied Do you ever question if you re doing what you re supposed to be doing if you re fulfilling your life s purpose If so you are not alone Like millions of Americans Brian Souza found himself in this precarious position a few years back Despite attending dozens of motivational seminars and devouring the best the self help industry had to offer Souza was left wanting more The turning point came when he finally realized it wasn t artificial motivation he was after he was really searching for a legitimate reason to be motivated Thousands of hours of research and countless interviews later Souza finally uncovered the secrets he was looking for all along Just as musicians must make music poets must write and artists must paint we all have a unique gift designed for a specific vocation that will bring both meaning and purpose to our lives True joy and happiness will continue to elude us until we use that gift to become who we were born to be *Become Who You Were Born to Be* is a blueprint for discovering your unique gift and using it to realize your personal

and professional potential Souza's program for achieving success in all areas of life reveals Four steps to discovering your gift uncovering your passion and unlocking your purpose How to overcome fears and deal with change How to work passion into your profession Why a midlife crisis should be celebrated How to stop stressing and start living How to diagnose and fix flawed life patterns The untold secrets of top achievers To illustrate his life changing philosophy Souza relates true stories of everyday people and world famous celebrities including Lance Armstrong Amy Tan Sylvester Stallone Garth Brooks and Oprah Winfrey who became heroes by overcoming adversity and squeezing every ounce of opportunity from their gifts

The Israel Lobby and U.S. Foreign Policy John J. Mearsheimer, Stephen M. Walt, 2007-09-04 Originally published in 2007 The Israel Lobby and U S Foreign Policy by John Mearsheimer of the University of Chicago and Stephen M Walt of Harvard's John F Kennedy School of Government provoked both howls of outrage and cheers of gratitude for challenging what had been a taboo issue in America the impact of the Israel lobby on U S foreign policy A work of major importance it remains as relevant today as it was in the immediate aftermath of the Israel Lebanon war of 2006 Mearsheimer and Walt describe in clear and bold terms the remarkable level of material and diplomatic support that the United States provides to Israel and argues that this support cannot be fully explained on either strategic or moral grounds This exceptional relationship is due largely to the political influence of a loose coalition of individuals and organizations that actively work to shape U S foreign policy in a pro Israel direction They provocatively contend that the lobby has a far reaching impact on America's posture throughout the Middle East in Iraq Iran Lebanon and toward the Israeli Palestinian conflict and the policies it has encouraged are in neither America's national interest nor Israel's long term interest The lobby's influence also affects America's relationship with important allies and increases dangers that all states face from global jihadist terror The publication of The Israel Lobby and U S Foreign Policy led to a sea change in how the U S Israel relationship was discussed and continues to be one of the most talked about books in foreign policy

Weapons Proliferation and War in the Greater Middle East Richard L. Russell, 2007-05-07 This important new book explores the strategic reasons behind the proliferation of nuclear biological and chemical weapons as well as ballistic missile delivery systems in the Greater Middle East It examines the uses and limitations of chemical weapons in regional combat ballistic missile warfare and defenses as well as Iran's drive for nuclear weapons and the likely regional reactions should Tehran acquire a nuclear weapons inventory This book also discusses Chinese assistance to WMD and ballistic programs in the Greater Middle East Finally this book recommends policy options for American diplomacy to counter the challenges posed by WMD proliferation This essential study prepares the ground for the challenges facing the international community Richard Russell is a professor at the National Defense University's Near East South Asia Center for Strategic Studies in Washington DC He also teaches at the Security Studies Program at Georgetown University He previously served as a political military analyst at the CIA

Suiting Themselves Sharon Beder, 2012-06-25 In this brilliantly researched expos communications Rottweiler Sharon

Beder blasts open the backrooms and boardrooms to reveal how the international corporate elite dictate global politics for their own benefit Beder shows how they created business associations and think tanks in the 1970s to drive public policy forced the worldwide privatization and deregulation of public services in the 1980s and 1990s enabling a massive transfer of ownership and control over essential services and still not satisfied have worked relentlessly since the late 1990s to rewrite the very rules of the global economy to funnel wealth and power into their pockets Want a globalized and homogenized world of conflict poverty and massive environmental degradation run by a corporate oligarchy that wipes its feet on democracy Or a democratic world where poverty is history companies work for people and clean water is a right not a privilege you pay for

Beder's message is clear it's your world and it's time to fight for it **Between Peril and Promise** J. Martin

From Pablo to Osama

Michael Kenney, 2007-02-28 *From Pablo to Osama* is a comparative study of Colombian drug smuggling enterprises terrorist networks including al Qaeda and the law enforcement agencies that seek to dismantle them Drawing on a wealth of research materials including interviews with former drug traffickers and other hard to reach informants Michael Kenney explores how drug traffickers terrorists and government officials gather analyze and apply knowledge and experience The analysis reveals that the resilience of the Colombian drug trade and Islamist extremism in wars on drugs and terrorism stems partly from the ability of illicit enterprises to change their activities in response to practical experience and technical information store this knowledge in practices and procedures and select and retain routines that produce satisfactory results Traffickers and terrorists learn building skills improving practices and becoming increasingly difficult for state authorities to eliminate The book concludes by exploring theoretical and policy implications suggesting that success in wars on drugs and terrorism

depends less on fighting illicit networks with government intelligence and more on conquering competency traps that compel policy makers to exploit militarized enforcement strategies repeatedly without questioning whether these programs are capable of producing the intended results *State of the World 2004* Worldwatch Institute, 2014-04-08 *State of the World 2004* takes a fresh look at the trends that have put the global economy on a collision course with the Earth's ecosystems. This year's edition has a special focus on the theme of consumption. It questions whether a less consumptive society is possible and concludes that it is essential. The book explores overconsumption as a by-product of affluence and underconsumption linked to poverty and provides behind the scenes exposes of the devastating environmental impacts of some of our most popular products from plastic bags to paper to mobile phones. Published annually in 28 languages each edition draws on the breadth of expertise of Worldwatch's award-winning team of writers and researchers. *State of the World* is relied upon by national governments, UN agencies, development workers, and law makers for its authoritative and up-to-the-minute analysis and information. It is essential for anyone concerned with building a positive global future. **Balancing Acts** Mary Taylor Huber, 2023-07-03 Drawing on interviews with Dan Bernstein (psychology, University of Nebraska), Brian Coppola (chemistry, University of Michigan), Sheri Sheppard (mechanical engineering, Stanford University), Randy Bass (American literature, Georgetown University), and colleagues within and outside their institutions and fields, the author looks at the routes these pathfinders have traveled through the scholarship of teaching and learning and at the consequences that this unusual work has had for the advancement of their careers, especially tenure and promotion. Failing Law Schools Brian Z. Tamanaha, 2012-06-15

On the surface law schools today are thriving Enrollments are on the rise and their resources are often the envy of every other university department Law professors are among the highest paid and play key roles as public intellectuals advisers and government officials Yet behind the flourishing facade law schools are failing abjectly Recent front page stories have detailed widespread dubious practices including false reporting of LSAT and GPA scores misleading placement reports and the fundamental failure to prepare graduates to enter the profession Addressing all these problems and more in a ringing critique is renowned legal scholar Brian Z Tamanaha Piece by piece Tamanaha lays out the how and why of the crisis and the likely consequences if the current trend continues The out of pocket cost of obtaining a law degree at many schools now approaches 200 000 The average law school graduate's debt is around 100 000 the highest it has ever been while the legal job market is the worst in decades with the scarce jobs offering starting salaries well below what is needed to handle such a debt load At the heart of the problem Tamanaha argues are the economic demands and competitive pressures on law schools driven by competition over U S News and World Report ranking When paired with a lack of regulatory oversight the work environment of professors the limited information available to prospective students and loan based tuition financing the result is a system that is fundamentally unsustainable Growing concern with the crisis in legal education has led to high profile coverage in the Wall Street Journal and the New York Times and many observers expect it soon will be the focus of congressional scrutiny Bringing to the table his years of experience from within the legal academy Tamanaha has provided the perfect resource for assessing what's wrong with law schools and figuring out how to fix them
