Targeting in International Law Amin Parsa, 2023-12-05 This book is about how distinctions are drawn between civilians and combatants in modern warfare and how the legal principle of distinction depends on the technical means through which combatants make themselves visibly distinguishable from civilians The author demonstrates that technologies of visualisation have always been part of the operation of the principle of distinction arguing that the military uniform sustained the legal categories of civilian and combatant and actively set the boundaries of permissible and prohibited targeting and so legal and illegal killing Drawing upon insights from the theory of legal materiality visual studies critical fashion studies and a dozen of military manuals he shows that far from being passive objects of regulation these technologies help to draw the boundaries of the legitimate target With its attention to the co productive relationship between law technologies of visualisation and legitimization of violence this book will be relevant to a large community of researchers in international law international relations critical military studies contemporary counterinsurgency operations and the sociology of law

Breaking the War Habit Scott Harding, Charles Howlett, Seth Kershner, 2022-07-15 The Pentagon currently spends around 1.4 billion per year on recruiting and hundreds of millions annually on other marketing initiatives intended to convince the public to enlist costly efforts to ensure a steady stream of new soldiers The most important part of this effort is the Pentagon's decades long drive to win over the teenage mind by establishing a beachhead in American high schools and colleges Breaking the War Habit provides an original consideration of the militarization of schools in the United

States and explores the prolonged battle to prevent the military from infiltrating and influencing public education Focused on the Junior Reserve Officer Training Corps JROTC in high schools and the Reserve Officer Training Corps ROTC in higher education the authors expose the pervasive influence and economic leverage bestowed on the military as it recruits children and youth Breaking the War Habit highlights those who have resisted the privileged status of the military and successfully challenged its position on campuses across the country A scrappy band of activists the Committee on Militarism in Education CME initiated this work following World War I publicizing the rise of school militarism and its implications For two decades CME s activism shaped public debate over the meaning of militarism in U S society and education settings resulting in numerous victories against ROTC and JROTC programs The authors also explore how since the mid 1970s military counter recruiters have contested military recruiters largely unchecked access to high school students raising awareness of a school to military pipeline that concentrates recruitment in urban predominantly Black and low income regions
