The Four Steps to a Full HD Experience Set, Sound, Source, and Setup

Along with your BRAVIA™ TV set, a complete HD system requires an HD source, source cable, and proper setup connections with compatible set-top box and satellite box.
Remember, an HD programming is required to experience the full benefit of HD.

The quality of the image you see on your BRAVIA™ can vary as high as the quality of the signal it is displaying. This chart shows the different signal types and how to access them.

Signal

	Connection	Source
High Definition (HDTV)	Set-top box quality HD output cable	HD Source (e.g., HD-DVD, Blu-ray Disc, HD Cable, Satellite, etc.)
Original Content	Good picture quality, analog video source as input	Original Content (e.g., DVD, VHS, etc.)
Standard Content	Standard quality, analog video source as input	Standard Content (e.g., DVD, VHS, etc.)

Connect your cable or satellite provider to upgrade your service to HD. Remember that not all HD broadcasts will be HD quality, so make sure you have the right set-top box and source cable to get the most from your new High Definition TV.
