Warner, Margaret Sermons Purser, 2017 A 2017 Choice Outstanding Academic Title The mythic American West with its perilous frontiers big skies and vast resources is frequently perceived as unchanging and timeless The work of many western based historical archaeologists over the past decade however has revealed narratives that often sharply challenge that timelessness *Historical Archaeology Through a Western Lens* reveals an archaeological past that is distinct to the region but not in ways that popular imagination might suggest Instead this volume highlights a western past characterized by rapid and ever changing interactions between diverse groups of people across a wide range of environmental and economic situations The dynamic and unpredictable lives of western communities have prompted a constant challenging and reimagining of both individual identities and collective understandings of their position within a broader national experience Indeed the archaeological West is one clearly characterized by mobility rather than stasis The archaeologies presented in this volume explore the impact of that pervasive human mobility on the West a world of transience impermanence seasonal migration and accelerated trade and technology at scales ranging from the local to the global By documenting the challenges of both local community building and global networking they provide an archaeology of the West that is ultimately from the West      Ski , 1985      Skiing , 1990-10

transcontinental railroad in May 1869 is usually told as a story of national triumph and a key moment for American Manifest Destiny. The Railroad made it possible to cross the country in a matter of days instead of months, paved the way for new settlers to come out west and helped speed America's entry onto the world stage as a modern nation that spanned a full continent. It also created vast wealth for its four owners, including the fortune with which Leland Stanford would found Stanford University some two decades later. But while the Transcontinental has often been celebrated in national memory, little attention has been paid to the Chinese workers who made up 90 percent of the workforce on the Western portion of the line. The Railroad could not have been built without Chinese labor, but the lives of Chinese railroad workers themselves have been little understood and largely invisible. This landmark volume explores the experiences of Chinese railroad workers and their place in cultural memory. *The Chinese and the Iron Road* illuminates more fully than ever before the interconnected economies of China and the US, how immigration across the Pacific changed both nations, the dynamics of the racism the workers encountered, the conditions under which they labored, and their role in shaping both the history of the railroad and the development of the American West. Praise for *The Chinese and the Iron Road*: This timely and essential volume preserves the humanity of the often ignored and forgotten immigrant worker while also uncovering just how important Chinese American railroad workers were in the making of America and its place in the world. Erika Lee, author of *The Making of Asian America*. Gordon H. Chang and Shelley Fisher Fishkin's meticulously researched and beautifully written book fills a critical gap in our nation's history. *The Chinese and the Iron Road* brings to life the stories of workers who defied incredible odds and gave their lives to unite these states into a nation. David Henry Hwang, Tony Award-winning playwright of *The Dance* and *The Railroad*, and *M. Butterfly*. Destined to become the go-to resource about Chinese railroad workers in the American West. Madeline Hsu, author of *The Good Immigrants: How the Yellow Peril Became the Model Minority*. Deeply researched and richly detailed. *The Chinese and the Iron Road* brings to life the Chinese immigrants whose work was essential to the railroad's construction. Thomas Bender, author of *A Nation Among Nations: America's Place in World History*. [Reno Flood Warning System, Nevada](#), 1998. *FAA General Aviation News*, 1978. *California*.
