1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. The second step is to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable parts and determining the best approach to solve each part.

4. The fourth step is to implement the plan. This involves carrying out the tasks and activities that have been identified in the plan.

5. The fifth step is to evaluate the results. This involves comparing the actual outcomes with the expected outcomes and identifying any areas for improvement.

6. The sixth step is to communicate the findings. This involves sharing the results of the analysis with the relevant stakeholders and providing recommendations for action.

7. The seventh step is to monitor and review the process. This involves keeping track of the progress of the project and making adjustments as needed to ensure that the project is completed successfully.

1. **What is the purpose of the study?**
The purpose of the study is to investigate the effect of the use of a mobile learning application on the learning outcomes of students in a distance education program.

2. **What is the research design?**
The research design is a quasi-experimental design, specifically a pre-test/post-test control group design.

3. **What are the independent and dependent variables?**
The independent variable is the use of the mobile learning application. The dependent variable is the learning outcomes of the students.

4. **What are the data sources?**
The data sources are the pre-test and post-test scores of the students in the control and experimental groups.

5. **What are the data analysis techniques?**
The data analysis techniques used are descriptive statistics (mean, standard deviation) and inferential statistics (t-test, ANOVA).
