Szd 55 1 Manual:

Head-Up Displays: Designing the Way Ahead Richard L. Newman, 2017-03-02 This is a thorough description of this increasingly important technology starting from the development of head up displays HUDs particularly specifications and standards and operational problems associated with HUD use HUD involvement in spatial disorientation and its use in recognizing and recovering from unusual attitudes is discussed The book summarizes the design criteria including hardware software interface and display criteria It goes on to outline flight tasks to be used for evaluating HUDs and discusses the impact of HUDs on flight training Recent work indicates that a HUD may allow a significant reduction in the time required to train a pilot on a particular aircraft even considering non HUD related tasks The author concludes with a review of unresolved HUD issues and recommendations for further research and provides an impressive bibliography glossary and index Within the military aviation sector the book will be of use to industry research agencies test pilot schools and air force training establishments In the civil area regulatory authorities airlines and industry will also have an increasing interest
