

TACTICAL SELF DEFENSE FLASHLIGHT

CH-102

Instruction Manual

Recharging

1. The rechargeable batteries are already installed. The unit cannot be opened, as this will void the warranty.
2. We recommend charging the stun baton before it is used. Simply plug the charging cord into the bottom of the unit and into a standard outlet. A green light will come on while the unit is charging. **IMPORTANT:** do not charge for more than 8 hours at a time. Overcharging can damage the unit and void the warranty. Under normal use the unit will need to be recharged for 8 hours every 60 days. If the LED Flashlight is used frequently or if the electrical current becomes noticeably weaker, the unit will need to be recharged.

Using the Flashlight

Overview: This unit features three light strengths (Maximum, Low, Strobe). When the situation does not require maximum light strength, the lower light settings can be used to conserve battery strength. Note that the ON/OFF Safety Switch on the bottom of unit only affects the stun mode so the light will work when this switch is set to either on or off.

1. Press the Function-Select Button until you see the flashlight turn on (remember there are three functions in the following order: Light, Stun, & Off).
2. Once the light is on you can change the light mode by half pressing the Function-Select Button. The light mode will change in the following order: Maximum, Low, Strobe. Warning: if you fully press the Function-Select Button the light will turn off and you will be in the Stun Mode. In this mode pressing the Stun Activation Button will discharge the stun gun (if the ON/OFF switch is set to OFF).
3. To turn off the light, fully press the Function-Select Button. Remember the order of the functions: When in light Light Function, pressing once moves the function to Stun, pressing twice moves it to Off and pressing a third time moves it back to Light.

Testing the Stun Batons (WARNING: Do not test fire the stun baton for more than 1 second as this will damage the unit and void the warranty.)

1. Slide the on/off switch on the bottom of the unit to the "ON" position.
2. Press the Function-Select Button until you are in the Stun Function (Remember there are three functions - Light, Stun, & Off).
3. The easiest way to locate the Stun Function is to fully press the Function-Select Button until you see the flashlight turn on.
4. Once the flashlight is on, press the Function-Select Button once more. The flashlight will turn off and the unit is now in Stun Function.
5. Press the Stun Activation Button to test fire the unit. Do not hold the button down for more than 1 second. You will see and hear an electrical charge fire across the top of the unit between the contact probes.
6. Once your test is complete, fully press the Function-Select Button to move out of Stun Mode. If you fully press this button once you will be in the OFF mode and if you fully press it twice you will be in the Light Mode.

Tactical Baton Manual:

USE OF THE MINI-BATON: A BASIC MANUAL Joseph Truncale, 2015-04-05 This manual was written for law enforcement and security officers who may be interested in the use of the Mini Baton. The Mini Baton can include any type of short stick such as the Yawara stick, Persuader Baton, Kubatons, Tactical Pens, and other short stick like objects. Topics in this manual include History of the short stick or Mini Baton, Basic principles of the Mini Baton, Stance and balance, Basic gripping, Basic blocking, Basic striking, Wrist control, and takedown techniques. How to use the Mini Baton for basic self defense, Basic teaching principles. There is also a sample course outline for those who are interested following an organized program of learning this effective and practical self defense and control tool. **Pro-Systems Complete Baton Manual** Fernan Vargas, Joseph

Truncale, 2015-10-03 The straight stick has probably been used as a self defense tool since a human made the first footprints on earth. Through the ages, variations of the stick and staff have been created to make a better self defense tool. The straight stick was turned into spears and swords. Understanding the basic use of the straight police baton makes it possible to use numerous other objects for self defense. In fact, the same techniques taught for using the police baton relate to a host of stick fighting and sword arts such as Hanbo Jutsu, Jo Jutsu, Wakizashi Jutsu, and similar weapon combat systems. It is hoped this book will provide a basic overview of the many ways a straight baton can be used for self defense, control, and takedowns for law enforcement, security officers, and martial artists studying weapons. *Tactical Baton Basic Certification Manual* ASP,
