Kenya Henry S. Bienen,2015-03-08 Kenya has been the object of much controversy among students of African politics Some view it as one of the greatest successes of the post independence period others see it as an example of all that is wrong with African development Henry Bienen approaches this controversy by asking whether the concept of political participation

has been properly understood in the African context His case study of political participation in Kenya discusses administration party politics ethnicity and class He suggests that in a system dominated by elites individuals and groups exert influence primarily through patron client networks and local administrative and party organs Local politics is the most important arena for most people it is argued As long as the regime adopts policies which maximize economic growth and take account of peasant middle and small holders and as long as individual representatives can be replaced even though no change of regime occurs limited political participation leads to political stability Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Unearthing and Harnessing the Power of the Soil Microbiome and Mycorrhizas to Enhance Plant Nutrient Utilization Under Climate Stress Marika Pellegrini, Periyasamy Panneerselvam, Sergio de los Santos Villalobos, Maddalena Del Gallo, Andrés Rodríguez-Seijo, Priyanka Adhikari, Debasis Mitra, 2024-09-19 The Earth's population currently estimated at 7.86 billion is expected to rise to 9.8 billion by 2050 This increase will inevitably lead to a greater pressure on agricultural land in order to achieve food security However agricultural sustainability is still constrained by its over reliance on chemical fertilizers pesticides and herbicides These conventional practices may lead to severe negative environmental consequences typically evidenced by a loss in soil organic matter and reduction in soil microbial diversity negatively impacting on food production The challenging situation identified above is likely to be worsened by climate change soil health deterioration and by a range of biotic and abiotic stresses Biotic and abiotic stress management enhancement of crop yields nutrient cycling and natural bio resources harnessing optimization can be achieved by modifying the soil microbiome Discovering and exploiting potentially beneficial soil microbes is crucial to achieving sustainable agriculture production in the face of these issues Among the plethora of potentially beneficial microbes plant growth promoting microbes PGPM and arbuscular mycorrhizal fungi AMF are often considered to be safe and environment friendly tools to deal with various stresses The interest in adopting novel methods that increase crop yield soil health and fertility will be positively impacted by a better understanding of the fate and behaviour of PGPM and AMF use in agriculture

The Railpolitik Yuan Wang, 2024-02-07 This book uses three case studies of Chinese financed and constructed rail projects to explore the growing presence of China in Africa and its relationship to African domestic politics It shows that the success of these projects relies on African political championship and that they are used to demonstrate rulers legitimacy

The Shadow of Kenya Democracy Dr Dominic Burbidge, 2015-10-28 Why has democracy failed to reduce corruption in Kenya Framing the challenge in game theoretical terms Dominic Burbidge examines how mutual expectations between citizens dictate the success or

failure of political reforms Providing a nuanced assessment of democracy's difficult road in Kenya Burbidge discusses the independent role being played by widespread social expectations of corruption Through tracking average views of the average person it is possible to identify a threshold beyond which society suffers mutually reinforcing negative social expectations
