Take Me Higher A Santos Dumont Biography:

Organization Studies and Posthumanism François-Xavier de Vaujany, Silvia Gherardi, Polyana Silva, 2024-04-05 This book aims at exploring the reception of critical posthumanist conversations in the context of Management and Organization Studies It constitutes an invitation to de-center the human subject and thus an invitation to the ongoing deconstruction of humanism The project is not to deny humans but to position them in relation to other nonhumans more than humans the non-living world and all the missing masses from organizational inquiry What is under critique is humanism's anthropocentrism, essentialism, exceptionalism and speciesism in the context of the Anthropocene and the contemporary crisis the world experiences From climate change to the loss of sense at work to the new geopolitical crisis to the unknown effects of the diffusion of AI all these powerful forces have implications for organizations and organizing A re-imagination of concepts, theories and methods is needed in organization studies to cope with the challenge of a more-than-human world Truth

, 1902 **The History of Flight** Sarel Eimerl, 1964 The text illustrated by photography surveys the story of man's conquest of the air from the myths and legends of the earliest civilizations to today's projected manned flight to the moon Publisher

The American Heritage History of Flight Arthur Gordon, 1962 This book begins with the myths of flight which seem to have haunted mankind from the beginning It shows the dream begins to acquire substance first as a feathered toy then as a funny thing that happened to a paper bag held over a fire then as a wood and canvas fledgling which quickly grew to cast its shadow across the face of the earth Ten Chapters marking history through Postwar Amazon **Our Paper**, 1904 Like Sex with Gods Bayla Singer, 2003-05-08 Human flight is not a simple matter of science and technology It is a continuing epic of dreams and obsession of yearning and striving to harness the intellect in the service of the emotions In Like Sex with Gods An Unorthodox History of Flight Bayla Singer offers a unique approach to humanity's fascination with flying Rather than merely tracing the factual prehistory of flight up to the success of the Wright Brothers Bayla Singer considers the interaction and influence of our dreams, fantasies, culture and technology on the age-old quest to fly This enlightening study begins with the deities and other denizens of the heavens that humanity has created in its religion, literature and art At first a monopoly of the gods' flight came to interest humanity as a way to free itself from the physical and intellectual bonds of the earth The myth of flight eventually gives way to the pursuit of actual flight Singer shows in compelling detail the many flying machines that have been created including balloons, gliders and kites The accomplishment of the Wright Brothers and our successful trips into space are merely stops on a continuing journey as our ancient dream of flight continues to push us to new and loftier places Filled with compelling stories and detailed illustrations this book provides absorbing reading for aviation experts those fascinated with the intimate relationship between technology and culture and all of us who have even a passing interest in flying The Standard Dictionary of Facts, 1920 **The Standard Dictionary of Facts** Henry Woldmar Ruoff, 1923 *Official Report of the ...
