Succeeding at Assessment Centres For Dummies, UK Edition Nigel Povah, Lucy Povah, 2011-02-14 It is becoming more common for organisations to use assessment centres as part of their recruitment drive. So if you've recently been invited to one and you're not sure what to expect or how to excel, then this is the book for you. The assessment center method is a technique or process that is used to assess individual performance and potential. One of the most heavily researched topics over the last 30 years has been the internal structure of AC ratings that assessors make on rating dimensions after the completion of each exercise. This volume with contributions from experts from around the world looks at Dimension Based Assessment Centers, Task Based Assessment Centers, and Mixed Model Assessment Centers. All three perspectives are presented in different sections and a summary of these diverse perspectives is given at the end of the book. **How to Succeed at an Assessment Centre** Harry Tolley, Robert Wood, 2005-10-31 This manual informs readers of what to expect when attending an assessment centre and offers advice on how candidates might prepare for the different forms of assessment. **How to Succeed at Assessment Centres** Kathleen Houston, Eileen Cunningham, 2017-08-31 This book is a fast track course on how to perform convincingly and impressively for assessment centres and in depth interviews. It guides students through the process from making the shortlist and preparing for psychometric tests through to delivering dynamic presentations and demonstrating your teamwork and leadership potential. Combining insights from employers who run assessment centres with the stories of graduates who have experienced them, it includes opportunities for students to try their hand at authentic assessment centre activities, build their knowledge of current recruitment methods and develop strategies for success. Packed with helpful advice and handy hints, this is an essential companion for all students preparing for assessment centres and interviews as part of the graduate recruitment process. It is also an ideal resource for students and staff on career and employability related modules. *How to Succeed at an Assessment Centre* Harry Tolley, Robert Wood, 2011-06-03 When applying for a new job or promotion, many people face the rigours of an assessment centre. Many organisations in both the public and private sectors use these extended forms of assessment for selection purposes to guarantee they pick the candidate who will be the best fit for the company. However, candidates often fail to do themselves justice as they are unaware of the different types of assessment tasks they may have to undertake. *How to Succeed at an Assessment Centre* provides ideal preparation for assessment events and gives
