Day Camp Programming and Administration Jill Moffitt, 2011 More and more recreation and fitness professionals are called on to create day camps for children in facilities that have traditionally been geared to recreation and fitness users. New programming and operational challenges arise as professionals are asked to serve a different population with innovative programs through these camps. You can overcome those challenges with *Day Camp Programming and Administration: Core Skills and Practices*. This handy reference, which is geared toward new professionals, will help you conduct a needs analysis and prepare a proposal for a facility-based camp regardless of your setting, develop business and marketing plans for your camp, manage risk and generate money through your camp, and manage programming, staff training, and administrative processes from conception through evaluation. The book comes with a CD-ROM that supplies you with a comprehensive set of worksheets and forms to assist you in planning, operating, and evaluating your camp. You can use these printable tools as the book guides you step by step through the camp management process. You will be exposed to an array of program choices and training and administrative tasks that will help you run successful camps. The author draws on her 12 years of experience in running day camps to help you plan your camp. You will learn how to gather information in making wise decisions as you get started, how to plan for safety and comply with health and safety standards, and how to develop camp policies and communicate with parents. You will then be guided through organizing the camp structure, including registration, the business plan, and the daily schedule. You will explore how to hire, train, develop, and evaluate staff, and you will examine common camp programs and discover how to select and implement your own program. Finally, you will learn how to evaluate your program and use that evaluation in preparing future camps. *Day Camp Programming and Administration: Core Skills and Practices* covers all you need to know to operate your own facility-based day camp, whether you are a professional in a municipal recreation department, a fitness owner looking to branch out, or a campus recreation professional. This guide addresses challenges you will face as a new day camp provider through practical examples, tried and true suggestions, and tips that will help you fulfill your community's needs, increase your bottom line, and provide fruitful experiences for your day campers.

Private Conversations Martha Robinson, 2012-05-04 Collectively, my essays create a self-portrait of me with Bob Robinson, the defining influence of my life, and the lives of our children Shirley, Lalia, Elizabeth, Smith, Susan, Threat, Mary, Catherine, Phillip, Rease, and their children. They know through Bob's book *Doctor Robinson* and his genealogy research that one must understand her/his roots to know how the past affects their futures. Through my writing, they will understand more about the people and events that have shaped my life, influences that will also be felt far into the future of Robinson descendants.

The Girl in the Text Ann Smith, 2019-07-16 How are girls represented in written and graphic texts, and how do these representations inform our understanding of girlhood? In this volume, contributors

examine the girl in the text in order to explore a range of perspectives on girlhood across borders and in relation to their positionality In literary and transactional texts girls are presented as heroes who empower themselves and others with lasting effect as figures of liberating pedagogical practice and educational activism and as catalysts for discussions of the relationship between desire and ethics In these varied chapters a new notion of transnationalism emerges one rooted not only in the process through which borders between nation states become more porous but through which cultural and ethnic imperatives become permeable
