Standard Letters In Architectural Practice:

Standard Letters in Architectural Practice David Chappell, 2009-03-16 This book provides over 300 standard letters for architects and contract administrators to use at all stages of contract administration. The letters are grouped into sections which correspond with the RIBA Plan of Work; the aim is to cover all the common situations encountered in practice. This Fourth Edition has been revised to take account of the extensive changes to virtually the whole of the JCT suite of building contracts. Unless otherwise stated, all letters are suitable for use with JCT Standard Building Contract SBC, JCT Intermediate Building Contract IC, JCT Intermediate Building Contract with contractor's design ICD, JCT Minor Works Building Contract MW, JCT Minor Works Building Contract with contractor's design MWD, JCT Design and Build Contract DB, GC Works 1 1998, With Quantities Contract. The latest edition also takes account of the CDM Regulations 2007, the revised RIBA Code of Conduct and its associated guidance notes and the RIBA standard agreements for the appointment of an architect issued in 2007. Architects and contract administrators spend a great deal of time writing letters of various types. Many of them are routine and repetitive in character but they require proper consideration if potentially dangerous liability situations are to be avoided. The book will be of use not only to architects and contract administrators but also to project managers and employers' agents.

Standard Letters for Building Contractors David Chappell, 2008-04-15 Whenever a contractor undertakes work using one of the standard building contracts, however small the job, he will be involved in writing a good many letters. Some will be formal notices; he is required to give others; will be letters it is prudent to send. This book provides a set of over 270 standard letters for use with the standard forms of building contract and sub-contract and aims to cover all the common situations which contractors will encounter when involved in a contract. The letters are for use with JCT 98 Design and Build Form WCD 98, Intermediate Form IFC 98, Minor Works Agreement MW 98, GC Works 1 1998, JCT Standard Form of Domestic Subcontract 2002, DOM 2 1998, NSC C 1998, NAM SC 1998, GC Works SC 2000. The new edition takes account of substantial revisions to the standard forms of contract and introduces the new JCT Domestic Subcontract and the form of subcontract for use with GC Works 1 1998. New features include withholding notices and letters concerning adjudication. The book comes with a free CD which includes all the letters and which can be used with both Word and Word Perfect on PC and Macintosh machines. Although primarily written for contractors, the book will also be of use to subcontractors.

Contractual Correspondence for Architects and Project Managers David Chappell, 2006-03-16 This book provides over 160 model letters with commentary for use with all the main JCT 2005 building contracts. It concentrates on problems which can arise during a project and draws on the author's extensive experience as a contracts consultant. It is a companion to the author's *Standard Letters in Architectural Practice* which covers more routine matters. The revised Fourth Edition takes account of the 2005 editions of the JCT Standard Building Contract, the Intermediate Building Contract and the Minor Works Building Contract, both with their contractor's design versions ICD and MWD, the 2004 updates of the Standard Form of Agreement for the
