Standard Operating Guideline – (SOG)

Title: **MAINTENANCE MANAGEMENT SYSTEM**

District Name: _____

Date Prepared:_____ Date Revised:_____

OBJECTIVE:

A Maintenance Management System is an organized method of collecting documentation as it pertains to repair and rehabilitation work. The objective of this standard operating guideline is to give your organization ideas on how to develop and/or enhance your organization's maintenance management system.

RATIONALE / PURPOSE:

The purpose of this standard operating guideline is to promote the implementation of a comprehensive maintenance management system. Utilities usually keep some sort of record of repairs and rehabilitation work. A maintenance management system is a systematic method of recording these events so analysis can be performed on these records. This management system can be as simple as documenting maintenance on 5x8 cards, or as elaborate as a computerized maintenance management system interfaced with geographic information systems (GIS). The important part is that all maintenance activities (routine and non-routine), are documented in a system that can be analyzed at a later date. A maintenance management system along with a preventive and predictive maintenance program is essential to reducing overall operating costs, liability, and property losses.

An effective maintenance management system is essential to:

- Improving customer service
- Ensure mission capability
- Ensure firefighting capability
- Reduce liability and property losses
- Determine capital replacement budgeting
- Development of agency master plans
- Development of material standards
- Development of preventive and predictive maintenance programs
- Development of loss trend analysis
- Reduce revenue loss

Standard Operating Procedures: A Complete Handbook for Yoga and Naturopathy Hospital Operations Dr.

Gulab Rai Tewani, Dr. Bhavit Bansal, 2025-05-02 Standard Operating Procedures A Complete Handbook for Yoga Naturopathy is a pioneering guide tailored for administrators, clinicians, researchers, and students in the AYUSH sector. Authored by Dr. Gulab Rai Tewani and Dr. Bhavit Bansal, this comprehensive manual outlines structured protocols to enhance patient care, streamline operations, and ensure regulatory compliance in Yoga Naturopathy hospitals. By integrating evidence-based practices with traditional wisdom, it standardizes procedures across hospital administration, therapeutic services, research, training, and digital health systems. Aligned with NABH standards, the book bridges the gap between holistic healing and modern healthcare, making it an essential resource for advancing quality, safety, and excellence in AYUSH healthcare delivery.

Validation Standard Operating Procedures Syed Imtiaz Haider, 2006-05-30 Spanning every critical element of validation for any pharmaceutical, diagnostic, medical device, or equipment and biotech product, this Second Edition guides readers through each step in the correct execution of validating processes required for non-aseptic and aseptic pharmaceutical production. With 14 exclusive environmental performance evaluations, Good Manufacturing Practices for Pharmaceuticals, Seventh Edition Graham P. Bunn, 2019-02-04 This book provides insight into the world of pharmaceutical quality systems and the key elements that must be in place to change the business and organizational dynamics from task-oriented procedure-based cultures to truly integrated quality business systems that are self-detecting and correcting. Chapter flow has been changed to adopt a quality systems organization approach, and supporting chapters have been updated based on current hot topics, including the impact of the worldwide supply chain complexity and current regulatory trends. **Understanding**

Pharmaceutical Standards and Regulations Navneet Sharma, Vikesh Kumar Shukla, Sandeep Arora, 2025-06-24 This unique resource provides a comprehensive guide to the evolving regulations and standards which govern the international pharmaceutical industry. Pharmaceuticals World Health Organization, 2007 Quality assurance of pharmaceutical products is a continuing concern of WHO Despite efforts made around the world to ensure a supply of quality and effective medicines substandard spurious and counterfeit products still compromise health care delivery in many countries To respond to the global need for adequate quality assurance of pharmaceuticals WHO s Expert Committee on Specifications for Pharmaceutical Preparations has over the years made numerous recommendations to establish standards and guidelines and to promote the effective functioning of

national regulatory and control systems and the implementation of internationally agreed standards by trained personnel. Many of the relevant documents endorsed by the Committee are reproduced in this volume providing guidance covering all aspects of good manufacturing practices (GMP). Important texts on inspection are also included. Most of the material has been published separately in the Expert Committee's reports. This compendium brings it together to make it more accessible and of greater practical value to those working in faculties of pharmacy in medicines regulation and control and in the pharmaceutical industry. This is the second updated edition of the compendium and includes texts published in 2005 and 2006 in the WHO Technical Report Series.
