English Language Arts, Grade 12 Module 2 PCG Education, 2015-12-18 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research, and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

ABOUT PCG EDUCATION PCG Education, a division of Public Consulting Group, works with schools, districts, and state education agencies to build their capacity for instructional and programmatic improvements. Expertise in Every Classroom Amanda Shuford Mayeaux,Dianne F. Olivier,2020-03-23 Expertise in every classroom should be the norm not the exception We have all had that magical teacher who we remember years later We remember how this teacher made us believe we could do anything The mythical experts exist and have much to teach us in our quest to build a powerhouse education system Unfortunately forty years of research and over 25 years of reform models have led to few changes in the teaching profession and in the

overall outcomes in education Both national and international research demonstrates expertise in teaching can be clearly defined and developed Countries around the world have successfully revamped their systems to develop and support expert teachers While we grapple with failed value added models and are beginning to understand linkage to single achievement test scores leaves out the impact teachers have upon the students peers and the culture as a whole We have erected barriers in the form of scripted curricula overuse of testing and failed professional development models Yet some teachers overcome all the barriers and develop expertise These teachers find avenues of development either in small pockets of peers or individually While other countries are developing experts in mass numbers the United States is creating such teachers in very small pockets Examining the thinking processes and practice of these teachers offers a glimpse into what we should desire in every classroom in every school This book bridges both research and practical elements We believe expert teachers desire both We often discuss the disconnect between research and practice This book is intended to bridge both academic expectations and practitioner expectations We believe the academic community must make research accessible and user friendly to practitioners and practitioners should be at the forefront of research discussions We must blend the ivory towers of academia with the daily work in our schools if we are to create world class systems Expert teachers are both academic researchers and critical practitioners Reform movements are showing little progress We need to redefine the profession

The Re-Imagined Text Jean I. Marsden, 2014-07-15 Shakespeare's plays were not always the inviolable texts they are almost universally considered to be today The Restoration and eighteenth century committed what many critics view as one of the most subversive acts in literary history the rewriting and restructuring of Shakespeare's plays Many of us are familiar with Nahum Tate's audacious adaptation of King Lear with its resoundingly happy ending but Tate was only one of a score of playwrights who adapted Shakespeare's plays Between 1660 and 1777 more than fifty adaptations appeared in print and on the stage works in which playwrights augmented substantially cut or completely rewrote the original plays The plays were staged with new characters new scenes new endings and underlying all this novelty new words Why did this happen And why in the later eighteenth century did it stop These questions have serious implications regarding both the aesthetics of the literary text and its treatment for the adaptations manifest the period's perceptions of Shakespeare As such they demonstrate an important evolution in the definition of poetic language and in the idea of what constitutes a literary work In *The Re-Imagined Text* Jean I. Marsden examines both the adaptations and the network of literary theory that surrounds them thereby exploring the problems of textual sanctity and of the author's relationship to the text As she demonstrates Shakespeare's works and English literature in general came to be defined by their words rather than by the plots and morality on which the older aesthetic theory focused a clear step toward our modern concern for the word and its varying levels of signification
