

GOVERNMENT

WHO TAKES CARE OF WHAT?

Your food is safe. Your state has roads and schools. Your community has parks and police. Government makes these things happen... and more.

S

Safe travel! The Federal Aviation Administration (FAA) ensures that flying is safe.

How much? The U.S. mint manufactures and distributes all coins and bills. The Bureau of Engraving and Printing prints our paper money.

Ensuring national security. The Department of Defense provides the military forces needed to prevent war and keep our country safe.

Protecting plants and animals. U.S. Fish and Wildlife focuses on protecting endangered species.

Is your health? The Food and Drug Administration (FDA) monitors all medicines and sets food safety standards.

Learning more on your behalf. The National Institute of Health (NIH) supports research into the causes and cures of diseases.

FEDERAL AND STATE

How green is it? National and state governments create and maintain about 200 million acres of parks and forests.

Correctional facilities - prisons - house people who have been convicted of a crime.

How big? About 4 million miles of roads cross the U.S.

Safe and sound. Community police, state troopers, the National Guard, and the FBI (Federal Bureau of Investigation) work to fight crime.

Model this. The Constitution establishes how elections work. Both U.S. and state governments, both state and local, arrange for polling places where people cast their vote.

Behind the wheel. Every state has a Department of Motor Vehicles. When you're old enough to get a driver's license, learn where you'll go.

Go fish! But first you'll need a state-issued fishing license. The same goes for hunting.

Road to go. Lawyers and other professionals must pass a state licensing exam in the state where they plan to work.

Model! Any amendment to our Constitution must be approved in at least 38 states.

Cutting cost. A state controls all the hospitals within its borders and owns direct control over specific facilities.

Electing our President. Every state elects electors for the Electoral College. Electors cast votes for which candidate gets the majority of votes in the state.

Your teachers, your schools.

Local communities hire teachers. They set school rules and decide whether to send a child to school. What gets taught in the state is responsible.

Electricity, natural gas, and water are responsible for the managed and distributed. Local communities are in charge.

Pick! That's what you might say without the garbage collection provided by your community's sanitation department.

911

Quick, call 9-1-1! Your community's first responders - firefighters, police, and EMTs (Emergency Medical Technicians) - are there in minutes.

Read, play, enjoy. If you like stories, comic books, games, and other recreation facilities in your community, say there are in your local government.

Emergency! Without your local government to make the rules and to perform, you may end up with a rough ride.

Children Kenneth C. Land,2012-06-20 In 1998 the Foundation for Child Development FCD provided Kenneth Land a grant to explore the feasibility of producing the first national composite index of the status of American children that would chart

changes in their well being over time Important questions needed to be answered was it possible to trace trends in child and youth well being over several decades Could such an index provide a way of determining whether the United States was making progress in improving its children s lives The Index of Child and Youth Well Being CWI was born from these questions Viewing the CWI trends from 1975 to present there is evidence that the well being of American children lags behind other Western nations As conditions change it is clear that the index is an evolving and rich enterprise This volume attests to that evolution and what the CWI promises for understanding the progress or lack of progress in enhancing the life prospects of all American children *Children Rights and Wellbeing in India* Joseph A Gathia, Sanjay V. Gathia, 2015-01-01 India has emerged as one of the fastest growing markets in the world But what does it mean to its children Of total estimated population in 2014 as 1 236 million nearly 28 5 % are below age of 14 years Despite such a huge child population in India the issues that affect their lives and even survival tend to receive remarkably little attention This study *Children s Rights and Well being in India Law Policy and Practice Volume I II and III* is one among the few to address this theme on such a wide canvas that spans both time frame and issues There has been a growing interest over the past decade in the concept of child s rights among policy makers practioners and academics in both India and internationally But does it mean the same thing to children and families as it does to policy makers How can it be measured And if it has begun to impact on government policy has it made any difference to children s lives The three volume study *Children s Rights and Well being in India* provide an overview of key child development policies programmes laws trends and raises pertinence questions about their potential impact on children s rights The challenges of improving children s well being go beyond the provision of more effective public services important though these are The bigger questions are how can we create a society in which children are better valued and parents better supported in bringing up their children And what can be done to reduce inequalities which influence every aspect of children s well being This book makes use of a variety of sources of data including that of Govt of India the World Bank and UN agencies particularly the UNICEF and the ILO All the three volumes of *Children s Rights and Well being in India* are an essential text for all those who want to understand the crisis threatening our children s future
