

Statement of Objective Sample

Even though I may not be able to predict the overall course that this project may take in my graduate school, I am expecting that it will be able to address the following issues and themes. One is the issue of determining the phenomena I have observed from other types of food obsession and restriction, namely, the ones that involve the modern ritual in dieting, including its extreme manifestation, that is, as an eating disorder.

Even though I am not willing to avoid those controversial and complicated parallels that exist between early modern usage of food, as well as food symbolism in order to control women's lives, I also want to serve as a historian an unbiased portrayal of how modern concepts of appetite among women were filled with historically and contemporary contingent notions evolving around gender and sexuality.

On top of that, the question regarding the use of a female agency in a project that has almost been concentrated on male viewpoint when it comes to behavior and diet still needs further discussion. On more than a single occasion, my personal use, as well as the analysis of different obstetric manuals has resulted in my curiosity regarding the existence of a patriarchal apparatus in which certain actions caused the oppression.

I believe that your University can provide me with the perfect climate for developing cross-disciplinary passion and interests. Generally speaking, I am very interested in pursuing a specified emphasis on gender, women and sexuality, which is a very unique option in distinguishing your University's history program as compared to other institutions. The nature of your graduate program would hopefully foster some fruitful discussions together with other departments. I am interested in enriching and broadening my research including my overall understanding of modern history and culture.
