

OPEN UNIVERSITY COURSE PETITION FOR LATE OR RETROACTIVE DROP

STUDENTS SEEKING AN EXCEPTION TO THE DEADLINE FOR COURSE WITHDRAWAL, must submit this petition, or personal statement, and a \$100 Open University fee to the UCSB Extension Student Services Office. No refunds of fees after the Drop Deadline. Requests are approved only in cases where unforeseeable circumstances affect course attendance and performance. Disappearing test results, ignorance of the rules, or changing interests are not satisfactory justification. Failure to attend class before or after the course withdrawal deadline is not a sufficient reason to justify an approval. Although students may consider their situation exceptional, they should not discontinue class attendance on the assumption that UCSB Extension will approve their request.

If continuing enrollment in the course creates a severe hardship, students may request an exception to the deadline by completing this form along with a written statement explaining the course at their hardship. Students must explain in detail the course at their difficulty, the timing of any changes they have experienced, how these circumstances affected their performance. In addition, students must explain why they did not drop the course by the published deadline. All information students provide is confidential and will be reviewed in this office only. Students are urged to provide documentation for their justification if possible.

Students' requests will be considered only after they have provided their written statement and the instructor's statement. Students may be asked for additional information or documentation. In the meantime, it is the student's responsibility to continue class attendance and to complete all assignments. If approved, or if withdrawn, grade will appear on student's personal transcript. If the request is not approved, students will remain enrolled in the course and whatever grade they earn will be recorded.

Ucsb Retroactive Withdrawal:

Interior Urbanism Charles Rice, 2016-02-25 Vast interior spaces have become ubiquitous in the contemporary city. The soaring atriums and concourses of mega hotels, shopping malls, and transport interchanges define an increasingly normal experience of being inside in a city. Yet such spaces are also subject to intense criticism and claims that they can destroy the quality of a city's authentic life on the outside. *Interior Urbanism* explores the roots of this contemporary tension between inside and outside, identifying and analysing the concept of interior urbanism and tracing its history back to the works of John Portman and Associates in the 1960s and 70s. America Portman increasingly recognised as an influential yet understudied figure, was responsible for projects such as Peachtree Center in Atlanta and the Los Angeles Bonaventure Hotel, developments that employed vast internal atriums to define a world of possibilities not just for hotels and commercial spaces but for the future of the American downtown amid the upheavals of the 1960s and 70s. The book analyses Portman's architecture in order to reconsider major contexts of debate in architecture and urbanism in this period, including the massive expansion of a commercial imperative in architecture, shifts in the governance and development of cities amid social and economic instability, the rise of postmodernism and critical urban studies, and the defence of the street and public space amid the continual upheavals of urban development. In this way, the book reconsiders the American city at a crucial time in its development, identifying lessons for how we consider the forces at work and the spaces produced in cities in the present.

Red Markers, Close Air Support for the Vietnamese Airborne, 1962-1975 Gary Willis, 2013 Award winning history of a segment of the Vietnam War. From 1962 until early 1973, a handful of USAF officers and airmen directed close air support for the Vietnamese Airborne and its American advisors in MACV Advisory Team 162. This Red Marker detachment began as a single Air Liaison Officer. It grew into a combat unit of 36 personnel with a dozen aircraft before shrinking to a single officer as the United States withdrew from combat. Over the decade of its existence, less than 175 men served in the unit. Five of them died in combat. This award winning history of these forward air controllers from the beginning to the end is based on contributions from 76 men who were there.
