Uk Budget Report 2008:

Pre-budget Report 2008 Great Britain. Parliament. House of Commons. Treasury Committee, 2009 The Treasury Committee's report on the Pre Budget Report 2008 Cm 7484 ISBN 9780101748421 considers that the balance of risks to the Treasury's forecast for a swift recovery in economic growth for 2010 after a significant decline in output in 2009 is on the downside The report highlights the lack of bank lending as the single most critical problem for the economy in the near term The overall effect of the fiscal stimulus remains uncertain the cost of the reduction in VAT is considerable and in the view of the majority of commentators the Treasury's analysis of its impact is an optimistic one The report notes that the risk of a self-reinforcing deflationary cycle exists in the UK economy at present and recommends that the Treasury prepare and publish the actions it may consider taking should a period of quantitative easing be needed While the need for lower interest rates to maintain economic growth is crucial at the present time the needs of savers must not be forgotten and the Treasury should consider measures that will also support savers at this difficult time The report notes with concern that the Pre Budget Report contains no policy measures which will significantly advance meeting the 2010 child poverty target

The 2008 Budget Great Britain. Parliament. House of Commons. Treasury Committee, 2008 This report examines the forecasts and measures contained in the 2008 Budget HC 455 session 2007 08 ISBN 9780102953336 The Treasury's lower forecasts for economic growth in 2008 and 2009 are above the average of independent forecasters suggesting that the Treasury may have given insufficient weight to the risks of continued financial market turbulence and that some of the UK economy's characteristics that have proven beneficial in past crises rapidly rising residential property prices close links with the US and an increasing reliance on the financial services industry for example might prove to be conduits through which the current problems in global financial markets are transmitted to the UK real economy The further weakening of the forecasts for the public finances is noted and it appears premature for the Treasury to state that it is on course to meet the golden rule in the next economic cycle given the lack of an end date for the previous economic cycle Measures on child poverty are welcomed but there is a need for a clear explanation on deployment of resources to ensure that the target to halve child poverty by 2010 11 will be achieved The abolition of the 10 pence rate of income tax will most affect those under 65 years of age in childless households earning under 18 500 the Committee feels this group is an unreasonable target for raising additional tax revenues The Treasury should commission research into whether the withdrawal of the 10 pence income tax band and high marginal deduction rates are creating disincentives that could frustrate the Government's welfare to work objectives The Committee also calls for a national Saving Gateway targeted at low income households and more consideration of tax changes on the middle and lower income groups of non domiciled taxpayers

Pre-budget Report 2009 Great Britain: Parliament: House of Commons: Treasury Committee, 2010 This report acknowledges that deciding the right time for fiscal consolidation requires making a

fine judgement about the resilience of the recovery It emphasises that a plan to restore the health of the public finances must deal with the structural deficit While the Treasury aims to cut the deficit from 9% of GDP to 3.6% of GDP in four years the expert witnesses who examined it all criticised the document for not providing enough information about how this will be achieved Future Budgets and PBRs should attempt to quantify the downside risks around the structural deficit forecast There will be uncertainty in these figures but they are produced as part of the Spending Review process so there appears to be no argument against their publication Similarly the Bank of England publishes forecasts showing the possible range of inflation rates and publishing information about debt interest on a similar basis would be useful The recession appears to have had substantially less impact on the labour market than might have been feared though concern remains about the level of youth unemployment Repossessions have been far lower than expected however it is recommended that the Treasury proceeds cautiously over the timing of removal of Government support in this area We do not want to see a return to the times of easy credit but the Government needs to remain aware of the risk that lending will not support renewed private sector growth as the public sector retrenches The purpose of the tax on bank bonuses is to change behaviour so that banks increase their capital rather than providing large discretionary payments to employees The next Parliament needs to examine the effectiveness of any regime introduced by the Financial Services Bill in terms both of its success in altering bank behaviour and of its effect on the competitiveness of the UK financial sector

spending and economic growth for the coming year Details announced include an annual growth rate of 2.5 per cent for 2006-07 with a forecast of 2.75 to 3.25 per cent for 2007-08 an inflation rate of two per cent this year and public sector borrowing

on course for a 16 billion surplus over the economic cycle ending in 2010 11 with net borrowing set at 37 billion for this year and 36 billion next year falling to 23 billion in the year to 2010 11 **Budget 2009** Great Britain. Parliament. House of Commons. Treasury Committee,2009 This report examines the forecasts and measures contained in the 2009 Budget HC 107 session 2008 09 ISBN 9780102959161 The Committee noted that there is considerable uncertainty around the Government's GDP growth forecasts for 2009 2011 reflecting the fact that the UK economy is in uncharted territory Whilst it is possible that the Government will meet its growth forecasts on the available evidence the Committee considers this an optimistic assumption They question the decision to assume that the economy will begin registering positive growth as early as the fourth quarter of 2009 and that the economy will register such strong growth in 2011 The Committee's concern is in that the sharp recovery in consumption forecast for 2011 might be too optimistic given that the UK economy will only just have emerged from a sharp downturn The strong rebound forecast in consumption growth from 2011 onwards has important implications for whether the rebalancing of the UK economy with a shift away from consumption and a rise in the savings ratio is merely a short term phenomenon The Committee notes it is too early to judge whether the November 2008 fiscal stimulus has been successful The Committee looked at unemployment and considers it too early to judge whether the Government's proposed guarantee of a job work placement or training scheme for all young people who have been on Jobseekers Allowance for 12 months together with the monetary and fiscal stimuli will be sufficiently timely and substantial response to the unemployment challenge For public finances the Committee recommends that future budgets and pre budget reports provide a sectoral analysis of tax revenues so that as the UK economy becomes less dependent on financial services and other sectors become more prominent the basis of the Treasury's revenue forecasts can be scrutinised The Committee was concerned over the lack of any substantial measures to combat child poverty For the housing market the Committee calls for a more stable framework for the payment of Local Housing Allowance and welcome the help announced for homeowners but regret the delays in implementation and lack of clarity in respect of some of the schemes recommending that clear information is provided The vehicle scrappage is noted to be of importance to the car industry and that it has been welcomed in some quarters and await the pre budget 2009 report to assess how effective the scheme has been The Committee believes there are uncertainties over the yield to be raised by the 50 percent top rate of income tax and recommend that the Treasury should report in the 2011 PBR on the revenue raised both nominally and as a percentage of the theoretical maximum revenue by this new top rate Regarding tax relief on pensions the Committee notes the departure from the long standing principle that tax relief for pension contributions should be given at an individual's marginal rate tax and urges the Treasury to monitor the effect of this change keeping under review the possibility that a cap on annual contributions might be a more equitable way of reducing the percentage of tax relief that benefits the highest earners **Tax Expenditures in OECD Countries** OECD,2010-01-05 This book sheds light on the use of tax expenditures mainly through a study of ten OECD countries Canada

France Germany Japan Korea Netherlands Spain Sweden the United Kingdom and the United States It highlights key trends and successful practices *The 2007 pre-budget report* Great Britain: Parliament: House of Commons: Treasury Committee,2007-11-26 This report from the Treasury Committee considers the state of the United Kingdom economy the public finances and individual tax measures in the 2007 Pre Budget Report Cm 7227 ISBN 0101722729 The Committee examines the Pre Budget Report under the following areas the real economy the public finances taxation issues and the role of the Pre budget report The Committee has set out 21 conclusions and recommendations including that the risk remains that the credit crunch will have greater macroeconomic effect than expected that the Treasury needs to recast the way in which it presents the risks to the economic forecasts in both Pre budget and Budget reports the Committee reiterates an earlier recommendation that the Government review the golden rule such that it becomes more forward looking and less dependent upon the dating of the economic cycle the Committee expressed concern about the reform of the capital gains tax regime and the possible detrimental effects that the withdrawal of taper relief could have on small businesses employee shareholders and longer term investment that it is important that the Pre Budget retains a focus on consultation on fiscal measures that may be included in the forthcoming budget **Harnessing Renewable Energy in Electric Power Systems** Boaz Moselle,Jorge Padilla,Richard Schmalensee,2010 Reflecting its reliance on fossil fuels the electric power industry produces the majority of the world s greenhouse gas emissions The need for a revolution in the industry becomes further apparent given that decarbonization means an increasing electrification of other sectors of the economy in particular through a switch from gasoline to electric vehicles Of the options for producing electric power without significant greenhouse gas emissions renewable energy is most attractive to policymakers as it promises increased national self reliance on energy supplies and the creation of new industries and jobs without the safety and political concerns of nuclear power or the unproven technology of carbon capture and storage Drawing on both economic theory and the experiences of the United States and EU member states Harnessing Renewable Energy addresses the key questions surrounding renewable energy policies How appropriate is the focus on renewable power as a primary tool for reducing greenhouse gas emissions If renewable energy is given specific support what form should that support take What are the implications for power markets if renewable generation is widely adopted Thorough and well evidenced this book will be of interest to a broad range of policymakers the electric power industry and economists who study energy and environmental issues *Budget 2010* Great Britain.
