Un Development Report 2008:

Politics as Usual Thomas W. Pogge, 2013-04-24 Worldwide human lives are rapidly improving Education health care technology and political participation are becoming ever more universal empowering human beings everywhere to enjoy security economic sufficiency equal citizenship and a life in dignity To be sure there are some specially difficult areas disfavoured by climate geography local diseases unenlightened cultures or political tyranny Here progress is slow and there may be set backs But the affluent states and many international organizations are working steadily to extend the blessings of modernity through trade and generous development assistance and it won't be long until the last pockets of severe oppression and poverty are gone Heavily promoted by Western governments and media this comforting view of the world is widely shared at least among the affluent Pogge's new book presents an alternative view Poverty and oppression persist on a massive scale political and economic inequalities are rising dramatically both intra nationally and globally The affluent states and the international organizations they control knowingly contribute greatly to these evils selfishly promoting rules and policies harmful to the poor while hypocritically pretending to set and promote ambitious development goals Pogge's case studies include the 1 day poverty measurement exercise the cosmetic statistics behind the first Millennium Development Goal the War on Terror and the proposed relaxation of the constraints on humanitarian intervention A powerful moral analysis that shows what Western states would do if they really cared about the values they profess

The Millennium Development Goals: Challenges, Prospects and Opportunities Nana Poku, Jim Whitman, 2017-07-05 As the 15 year Millennium Development Goals approach their conclusion we can now measure their larger successes and failures in more than snapshot fashion and we can begin to consider how best to shape the international development agenda for the coming decades based on what we have learned But the performance and outlook for the MDGs can neither be reduced to the sum of

its eight goals nor be divorced from international dynamics the hard interests of states and other actors and the global dynamics that impact on both For that reason this volume balances contextual analysis the role of formative and constraining forces the importance of normative considerations and illuminating case studies to deliver a study of the MDGs which has depth and nuance as well as breadth Poised between judging the recent performance and the future promise of the MDGs this book is substantial provocative and timely This book was published as a special issue of Third World Quarterly

Green Social Work Lena

Dominelli,2013-10-29 Social work is the profession that claims to intervene to enhance people s well being However social workers have played a low key role in environmental issues that increasingly impact on people s well being both locally and globally This compelling new contribution confronts this topic head on examining environmental issues from a social work perspective Lena Dominelli draws attention to the important voice of practitioners working on the ground in the aftermath of

environmental disasters whether these are caused by climate change industrial accidents or human conflict The author explores the concept of green social work and its role in using environmental crises to address poverty and other forms of structural inequalities to obtain more equitable allocations of limited natural resources and to tackle global socio political forces that have a damaging impact upon the quality of life of poor and marginalized populations at local levels The resolution of these matters is linked to community initiatives that social workers can engage in to ensure that the quality of life of poor people can be enhanced without costing the Earth This important book will appeal to those in the fields of social work social policy sociology and human geography It powerfully reveals how environmental issues are an integral part of social work's remit if it is to retain its currency in the modern world and emphasize its relevance to the social issues that societies have to resolve in the twenty first century

Beh, 2013-10-18 The overall aim of this volume is to present the research studies carried out in the Middle East and Asia in the fields of culture and gender and their influence on leadership in particular The cultures and practices of these geographical regions are very much varied and this book *Culture and Gender in Leadership Perspectives from the Middle East and Asia* brings together analyses of these themes in selected countries of these two regions The chapter authors use detailed descriptions case studies and vignettes to speak to the cultural relativism and gender in leadership in these countries and provide a unique and comparative perspective drawn from their own cultures This volume also contributes to the development of theory and empirical research found in these regions and through the collective efforts presented in this book attempts to strengthen the body of knowledge and practice in the fields of culture and gender in leadership As Asia is becoming the engine of economic growth for the world and Arab Spring is opening up new vistas in the Middle East this book is a must read

Overcoming Global Inequalities Immanuel Wallerstein, Christopher Chase-Dunn, Christian Suter, 2015-11-17 This book examines the changing nature of global inequalities and efforts that are being made to move toward a more egalitarian world society The contributors are world historical sociologists and geographers who place the

contemporary issues of unequal power wealth and income in a global historical perspective The geographers examine the roles of geopolitics and patterns of warfare in the historical development of the modern world system and the sociologists examine endeavours to improve the situations of poor peoples and nations and to engage the challenges of sustainability that are linked with global inequalities Overcoming Global Inequalities contains cutting edge research from engaged social scientists intended to help humanity deal with the challenges of global inequality in the 21st century **The Capability**

Approach and Sustainability Ortrud Lessmann,Felix Rauschmayer,2016-03-16 This is the first book dedicated exclusively to the question of the relationships between sustainability and the capability approach It is rather astonishing that the issue of sustainability first posed by the Brundtland commission in 1987 has gained so little attention from capability scholars despite the approach s focus on human well being This book starts with a seminal contribution by Sen on the Ends and Means of Sustainability delivered as a keynote in 2000 All contributions to the book focus on the difficulties that arise from a freedom oriented view of sustainability they argue for taking note of the impact of human life on nature they question the meaning of intergenerational justice when measured in the currency of substantive freedoms capabilities they raise the issue of collective responsibility and suggest ways to model and operationalize the capability approach to sustainable development The book presents the state of the art concerning The capability approach and sustainability while admitting that it is only a first contribution to a growing field that deserves our attention Defining what is to be sustained and asking how it can be sustained This book was published as a special issue of the Journal of Human Development and Capabilities **Enabling**

Enterprise Transformation Nagy K. Hanna,2009-12-11 Private enterprises in advanced economies have been learning to use information and communication technology ICT to innovate and transform their processes products services and business models significantly improving productivity and competitiveness Moreover the ICT industry itself has become a major source of job creation and a contributor to economic growth and business transformation A key question today is whether and how developing countries can learn to benefit from the ICT revolution and what roles the government and private sector can play Already a number of developing countries have been inspired by the example of India and China and are now seeking to jump on the outsourcing bandwagon Nevertheless with few exceptions in the developing world little attention has been paid by policymakers and practitioners to invest systematically and proactively in ICT enabled growth poverty reduction and grassroots innovation Most communities and small and medium sized enterprises in developing countries for example face multiple constraints to adopting and leveraging this general purpose technology and lack the capabilities for maximizing its potential In Enabling Enterprise Transformation Nagy Hanna draws on his rich experience of over 35 years at the World Bank and other aid agencies as a development strategist and ICT policy expert the most current research and best practices from around the world to provide practical tools for promoting economic and social transformation through ICT He assesses various initiatives to develop and diffuse ICT such as innovation funds incubators parks public private partnerships and

comprehensive promotion programs He argues for the strategic options now open for developing countries to participate in ICT production to deploy ICT to transform industries and services and to leverage ICT as a new national infrastructure for improving the business environment and enhancing the competitiveness of the whole economy The challenge for leaders in developing countries is to create such social and institutional dynamics for learning about ICT use and adaptation at many levels Lessons gained so far from programs to build these social learning and innovation capabilities at the institutional and grassroots levels should be shared among developing countries and a dialogue among business leaders policymakers development agencies educational institutions and the general citizenry must be advanced *Tanzania World*

Bank,2009-01-01 The World Bank is in the initial stages of developing a new annual series of World Bank Country Briefs Tanzania the second report in the series will be published in the winter of 2009 These short country specific reports examine the economic social environmental and business landscape of developing countries focusing on issues critical to development Overview People and Poverty Environment Economy Governance and Business Environment Global Links Statistical Appendix Population Dynamics in Muslim Countries Hans Groth,Alfonso Sousa-Poza,2012-03-28 The book discusses the demographic changes in Muslim countries It thereby focuses on topics such as the demographic dividend and the demographic transition labour market challenges health care universal education and gender issues These challenges are addressed at a country level and include policy implications for the large majority of the Muslim countries covered in this book Moreover political consequences for Europe with respect to the integration of Muslims are presented to the reader

Rwanda Fast Forward Patrick Noack,2012-07-31 The authors explore the outlook of Rwanda in the context of development of East Africa and Sub Saharan Africa They examine Rwanda s vision achievements and uncertainties in terms of national unity institutional leadership the spectre of industrial policy and economic development perceptions of civil society engagement etc *Migration, Citizenship and Intercultural Relations* Michele Lobo,2016-04-22 Migration Citizenship and Intercultural Relations reflects on the tensions and contradictions that arise within debates on social inclusion arguing that both the concept of social inclusion and policy surrounding it need to incorporate visions of citizenship that value ethnic diversity Presenting the latest empirical research from Australia and engaging with contemporary global debates on questions of identity citizenship intercultural relations and social inclusion this book unsettles fixed assumptions about who is included as a valued citizen and explores the possibilities for engendering inclusive visions of citizenship in local national and transnational spaces Organised around the themes of identity citizenship and intercultural relations this interdisciplinary collection sheds light on the role that ethnic diversity can play in fostering new visions of inclusivity and citizenship in a globalised world
