Zimsec Geo Marking Scheme November 2014:

Keeping the Republic Christine Barbour, Gerald C. Wright, 2016-11-19 This refreshed and dynamic Eighth Edition of *Keeping the Republic* revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what and how they should get it The exploding possibilities of the digital age make this task all the more urgent and complex Christine Barbour and Gerald Wright the authors of this bestseller continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic Routledge Handbook of the Digital Environmental Humanities Charles Travis, Deborah P. Dixon, Luke Bergmann, Robert Legg, Arlene Crampsie, 2022-09-12 The *Routledge Handbook of the Digital Environmental Humanities* explores the digital methods and tools scholars use to observe interpret and manage nature in several different academic fields Employing historical philosophical linguistic literary and cultural lenses this handbook explores how the digital environmental humanities DEH as an emerging field recognises its convergence with the environmental humanities As such it is empirically critically and ethically engaged in exploring digitally mediated visualised and parsed framings of past present and future environments landscapes and cultures Currently humanities geographical cartographical informatic and computing disciplines are finding a common space in the DEH and are bringing the use of digital applications coding and software into league with literary and cultural studies and the visual film and performing arts In doing so the DEH facilitates transdisciplinary encounters between fields as diverse as human cognition gaming bioinformatics and linguistics social media literature and history music painting philology philosophy and the earth and environmental sciences This handbook will be essential reading for those interested in the use of digital tools in the study of the environment from a wide range of disciplines and for those working in the environmental humanities more generally **Island Futures** Mimi Sheller, 2020-10-16 In *Island Futures* Mimi Sheller delves into the ecological crises and reconstruction challenges affecting the entire Caribbean region during a time of climate catastrophe Drawing on fieldwork on postearthquake reconstruction in Haiti flooding on the Haitian Dominican border and recent hurricanes Sheller shows how ecological vulnerability and the quest for a just recovery in the Caribbean emerge from specific transnational political economic and cultural dynamics Because foreigners are largely ignorant of Haiti's political cultural and economic contexts especially the historical role of the United States their efforts to help often exacerbate inequities Caribbean survival under ever worsening environmental and political conditions Sheller contends demands radical alternatives to the pervasive neocolonialism racial capitalism and US military domination that have perpetuated what she calls the coloniality of climate Sheller insists that alternative projects for Haitian reconstruction social justice and climate resilience and the sustainability of the entire region must be grounded in radical Caribbean intellectual traditions that call for

deeper transformations of transnational economies and human relations writ large Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Tanzania's Land Rush* Joanny Bélair, 2022-11-03 After the global financial crisis of 2008 a new trend in foreign direct investments FDI emerged investors rising interest in farmland in developing nations This land rush was a marker of increased land commodification and agricultural financialization but has also been associated with global narratives of agricultural modernization and development through FDI of cheap unproductive and or idle farmland Yet as this book demonstrates global investment dynamics are dictated by complex economic political socio historical dynamics in any host country Focusing on the land rush in Tanzania the contexts of six investment projects in the nation are examined and unpacked helping to understand the ways in which political struggles over land capital and authority all feed into determining the goals and eventually the outcomes of the farmland investment game **Liquid Biofuels: Bioethanol** Carlos Ricardo Soccol, Gonçalo Amarante Guimarães Pereira, Claude-Gilles Dussap, Luciana Porto de Souza Vandenberghe, 2022-10-17 This book covers the present and future of bioethanol biorefinery technologies It discusses the efficient use of feedstock in bioethanol production and critically reviews the environmental sustainability of bioethanol production In addition it describes the integrated production of bioelectricity biopolymers organic acids and other biomolecules as well as the use of process related liquid and solid byproducts and or wastes during bioethanol generation Since the bioethanol industry has also led the automotive industry to explore new avenues this book summarizes the various aspects of ethanol motorization hybrid engine development and biofuel electrification For decades clean and renewable alternatives have been sought to reduce dependence on petroleum based fossil fuels and CO2 emissions Bioethanol appears as one of the best solutions for the production of biofuels bioenergy and biochemicals along with the establishment of new biorefinery concepts and a circular bioeconomy Therefore the ideas and technologies presented in this book contribute to the UN Sustainable Development Goal 7 Affordable and Clean Energy This book is a useful reference for postgraduate students and researchers interested in biorefinery and biofuel technologies both in academia and commercial laboratories Early career scientists can use it to fast track into the field Advanced scientists will find it helpful to gain a broader overview of the field beyond their area of specialization  (Michael F.
