Office of The Federal Register,2017-04-01 *Lore of Nutrition* Tim Noakes,2017-11-01 In December 2010 Professor Tim Noakes was introduced to a way of eating that was contrary to everything he had been taught and was accepted as conventional nutrition wisdom Having observed the benefits of the low carb high fat lifestyle first hand and after thorough and intensive research Noakes enthusiastically revealed his findings to the South African public in 2012 The backlash from his colleagues in the medical establishment was as swift as it was brutal and culminated in a misconduct inquiry launched by the Health Professions Council of South Africa The subsequent hearing lasted well over a year but Noakes ultimately triumphed being found not guilty of unprofessional conduct in April 2017 In *Lore of Nutrition* he explains the science behind the low carb high fat Banting diet and why he champions this lifestyle despite the constant persecution and efforts to silence him He also discusses at length what he has come to see as a medical and scientific code of silence that discourages anyone in the profession from speaking out against the current dietary guidelines Leading food health and medical journalist Marika Sboros who attended every day of the HPCSA hearing provides the fascinating backstory to the inquiry which often reads like a spy novel *Lore of Nutrition* is an eye opener and a must read for anyone who cares about their health *Law, Obligation, Community* Daniel Matthews,Scott Veitch,2018-06-27 Against an ever expanding and diversifying rights talk this book reopens the question of obligation from not only legal but also ethical sociological and political perspectives Its premise is that obligation has a primacy ahead of rights because rights attach to practices and modes of being that are already saturated with obligations Obligations thus lie at the core not just of law but of community Yet the distinctive meanings range and situations of obligation have tended to remain under theorised in legal scholarship In response this book examines the sense in which we are multiply bound beings to law and legal institutions as much as we are to place community memory and the various social institutions that give shape to collective life Sharing this set of concerns each of the international group of scholars contributing to this volume traces the specificity of the binding force of obligations their techniques and modes of expression as well as their centrally important role in giving form to lawful relations Together they provide an innovative and challenging contribution to legal scholarship one that will also be of relevance to those working in politics philosophy and social theory
