Kampala (Uganda) , Sustainable Tourism IX J. Casares,F. Pineda,2020-09-28 Today tourism is an important component of development not only in economic terms but also for knowledge and human welfare Tourism today is an activity accessible to a growing number of people The phenomenon has many more advantages than disadvantages New forms of economic development and increasing wealth of human societies depend on tourism Our knowledge of the world now includes a strong component due to tourism Human

welfare has physiological and psychological elements which tourism promotes both because of the enjoyment of knowing new territories and increasing contacts with near or far away societies and cultures The tourism industry has nevertheless given rise to some serious concerns including social costs and ecological impacts Many ancient local cultures have practically lost their identity Their societies have orientated their economy only to this industry Both the natural and cultural rural or urban landscapes have also paid a high price for certain forms of tourism These problems will persist if the economic benefit is the only target leading to economic gains that eventually become ruinous It is also important to consider that visitors nowadays are increasingly demanding in cultural and environmental terms Never before have transport and communication links been so important as today Natural ecosystems are now a rarity on the planet and ecologists talk today about socio ecosystems Given this tourism and environmental education are facing a major challenge Tourism also plays an important role in the natural environmental changes that are strongly affected by technological and social developments Natural changes are inherent in the Earth s ecosystem the ecosphere Also technological and social changes are inherent to mankind the noosphere and are now becoming widespread Cities are growing rapidly and industry requires increasingly larger areas Many traditional rural areas are being abandoned However many historic agricultural districts have maintained or even recovered their local population numbers through intelligent strategies of tourism focused on nature and rural culture Natural landscapes and biodiversity are becoming increasingly appreciated The tourism industry must be able to respond to these aspirations The 9th International Conference on Sustainable Tourism had the aim of finding ways to protect the natural and cultural landscape through the development of new solutions which minimise the adverse effects of tourism A selection of the papers presented at the meeting form this volume Entebbe (Uganda) , Mbarara (Uganda) , **Environmental Law in Uganda** Emmanuel Kasimbazi, Kibandama Alexander, 2018-04-19 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides ready access to legislation and practice concerning the environment in Uganda A general introduction covers geographic considerations political social and cultural aspects of environmental study the sources and principles of environmental law environmental legislation and the role of public authorities The main body of the book deals first with laws aimed directly at protecting the environment from pollution in specific areas such as air water waste soil noise and radiation Then a section on nature and conservation management covers protection of natural and cultural resources such as monuments landscapes parks and reserves wildlife agriculture forests fish subsoil and minerals Further treatment includes the application of zoning and land use planning rules on liability and administrative and judicial remedies to environmental issues There is also an analysis of the impact of international and regional legislation and treaties on environmental regulation Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for environmental lawyers handling cases affecting Uganda Academics and researchers as well as business investors and the various international organizations in the field will welcome this very useful guide and

will appreciate its value in the study of comparative environmental law and policy **World Travel Guide** Columbus Publishing Ltd, Marie Peyre, 2005 With E World guide CD *Safety Essentials for Business and Leisure Travel* David Birkett, Kay Danes, 2021-04-26 At this moment in time when the world is only just beginning to recover from the global impact of the COVID 19 pandemic the research in this book makes for essential reading It will serve to help re establish confidence and reduce anxiety in business and leisure travellers who are planning to embark on new travel experiences in a world impacted by longer lasting armed conflicts increased global violence and higher frequencies of natural disasters This book blends in depth academic research around global risk mitigation with unique perspectives on business and leisure travel safety narrated by authors who have extensive knowledge of security and risk mitigation systems Each page contains easy to follow advice for domestic and international travel but differs from other books in that it addresses the hard issues of travel safety such as theoretical research around risk mitigation in lieu of setting the focus solely on the soft issues like itinerary planning which tend to be the focus of many travel publications today Moreover unique to this book is an extreme travel section adapted to business and leisure travellers which makes for compelling reading and deals with kidnapping risk mitigation and contingency planning It incorporates the real life experiences of one of the authors who survived torture and abduction and whose experiences now inform pre deployment training for Australian Defence Force personnel for operations in armed conflict This book blends the female and male voice into a narrative that combines the perspectives of professional security experts with common sense travel advice The research that has gone into this book is essential reading for anyone who intends to embark on business or leisure travel either in their own country or overseas or who is interested in studying travel from an academic viewpoint
