Uk Home Office Coi Report On Sri Lanka:

House of Commons - Home Affairs Committee: Asylum - HC 71 Great Britain: Parliament: House of Commons: Home Affairs Committee,2013-10-11 The asylum system is overburdened and under severe pressure The backlog of asylum cases that should have been cleared by 2011 has reached 32 600 with some people waiting up to 16 years for a decision Thousands appear to be living in a sub standard level of housing as part of the COMPASS contract supplied by the private contractors G4S Serco and Clearel These companies must be held accountable The quality of decision making is also of great concern as 30% of appeals against initial decisions were allowed in 2012 The impact of decisions are grave if asylum is not granted when it should be then the UK is failing to protect a vulnerable person If asylum is granted when it is not deserved then the UK may well end up harbouring war criminals and terrorists Those who apply for asylum should be checked against national and international law enforcement agency and security databases to ensure that we are not harbouring those who intend us harm The Home Secretary has to give assurance that any anomalies in the process which have allowed decisions such as this to take place are addressed immediately The are also oncerns about the level of support available to those who seek asylum in the UK The Immigration and Asylum Act 1999 section 4 which provides a reduced support system for asylum seekers who had had their claim refused but were unable to return to their country of origin through reasons that were no fault of theirs is not a solution

Adjudicating Refugee and Asylum Status Benjamin N. Lawrance,Galya Ruffer,2015-02-26 In this book legal biomedical psychosocial and social science scholars and practitioners offer the first comparative account of the increasing dependence on expertise in the asylum and refugee status determination process This volume presents a comprehensive study of the relevance of experts as mediators of culture who are called upon to corroborate substantiate credibility and serve as translators in the face of confusing legal standards that require proof of new forms and reasons for persecution around the globe The authors provide insights into the evidentiary burdens on asylum seekers and the expanding role of expertise in the forms of country conditions reports biomedical and psychiatric evaluations and the emerging field of forensic linguistic analysis in response to emerging forms of persecution such as gender based or sexuality based persecution

Anthropological Expertise and Legal Practice Marie-Claire Foblets,Maria Sapignoli,Brian Donahoe,2024-06-05 This book draws on concrete cases of collaboration between anthropologists and legal practitioners to critically assess the use of anthropological expertise in a variety of legal contexts from the point of view of the anthropologist as well as of the decision maker or legal practitioner The contributions several of which are co authored by anthropologist legal practitioner tandems deal with the roles of and relationships between anthropologists and legal professionals which are often collaborative interdisciplinary and complementary Such interactions go far beyond courts and litigation into areas of law that might be called social justice activism They also entail close collaboration with the people often subjects of violence and dispossession with whom the anthropologists and legal practitioners are working The aim of this collection is to draw on past experiences

to come up with practical methodological suggestions for facilitating this interaction and collaboration and for enhancing the efficacy of the use of anthropological expertise in legal contexts Explicitly designed to bridge the gap between theory and practice and between scholarship and practical application the book will appeal to scholars and researchers engaged in anthropology legal anthropology socio legal studies and asylum and migration law It will also be of interest to legal practitioners and applied social scientists who can glean valuable lessons regarding the challenges and rewards of genuine collaboration between legal practitioners and social scientists The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Fast-tracked Unfairness Gauri van Gulik, Human Rights Watch (Organization), 2010 The report documents how women asylum seekers with complex claims are being routed into a system designed for much simpler claims The women are held in detention largely for the UK's administrative convenience have very little time to prepare a legal case and have only a few days to appeal if refused But the claims often involve such sensitive and difficult issues as sexual violence female genital mutilation trafficking and domestic abuse

Statelessness and Citizenship Brad K. Blitz, Maureen Lynch, 2011-01-01 In our supposedly borderless world having a nationality and thus access to documents which permit travel and proof of identity has become increasingly important In many parts of the world including the cases in Europe Africa and Asia covered in this collection large groups of people struggle with forms of de facto or de jure statelessness In addition to providing a conceptual framework derived from international human rights norms for understanding better the phenomenon of statelessness this collection presents important empirical research material helping us to understand from the ground up

how statelessness is experienced Jo Shaw University of Edinburgh UK What difference does citizenship make The vulnerability of stateless persons clearly demonstrates the benefits of having a nationality But so far nobody has examined how much the situation of stateless persons improves when they finally get documents and citizenship status This exploratory study analyses practical difficulties and real progress in overcoming statelessness It gives voice to the victims and sets a political agenda Academic researchers non governmental organizations and policy makers should read this book Rainer Baub ck European University Institute Florence Italy Embracing a subject that is generally treated abstractly as a matter of human rights law the authors of this pathbreaking book root statelessness deep into historical context and lived experience They emerge with conclusions that are both dismaying the expansive scope of the problem and hopeful the measurable progress some states have made in expanding the boundaries of citizenship Alas this eloquent book could hardly be more timely Linda K Kerber University of Iowa US The United Nations High Commissioner for Refugees estimates that there are more than 12 million stateless people in the world The existence of stateless populations challenges some central tenets of international law and contemporary human rights discourses yet only a very small number of states have made measurable progress in helping individuals acquire or regain citizenship This fascinating study examines positive developments in eight countries and pinpoints the benefits of citizenship now enjoyed by formerly stateless persons The expert contributors present an original comparative study that draws upon legal and political analysis as well as empirical research incorporating over 120 interviews conducted in eight countries and features the documentary photography of Greg Constantine The benefits of citizenship over statelessness are identified at both community and individual level and include the fundamental right to enjoy a nationality to obtain identification documents to be represented politically to access the formal labor market and to move about freely Gaining or reacquiring citizenship helps eliminate isolation and solicits the empowerment of individuals collectively and personally Such changes are of considerable importance to the advancement of a human rights regime based on dignity and respect This highly original and thought provoking book will strongly appeal to a wide ranging audience including academics researchers students human rights activists and government officials with an interest in a diverse range of fields encompassing law international studies public policy human rights and citizenship Anthropology and Expertise in the Asylum Courts Anthony Good,2007-03-12 Offering an analysis of asylum processes in UK courts this study of asylum as an aspect of globalization focuses on the role of anthropologists as expert witnesses and compares the use of social scientific and medical evidence in decision making **Administrative Justice and Asylum Appeals** Robert Thomas,2011-01-18 FIRST PRIZE WINNER OF THE SLS BIRKS PRIZE FOR OUTSTANDING LEGAL SCHOLARSHIP 2011 How are we to assess and evaluate the quality of the tribunal systems that do the day to day work of adjudicating upon the disputes individuals have with government This book examines how the idea of adjudicative quality works in practice by presenting a detailed case study of the tribunal system responsible for determining appeals lodged by foreign nationals who claim that they will be

at risk of persecution or ill treatment on return to their country of origin Over recent years the asylum appeal process has become a major area of judicial decision making and the most frequently restructured tribunal system Asylum adjudication is also one of the most difficult areas of decision making in the modern legal system Integrating empirical research with legal analysis this book provides an in depth study of the development and operation of this tribunal system and of asylum decision making The book examines how this particular appeal process seeks to mediate the tension between the competing values under which it operates There are chapters examining the organisation of the tribunal system its procedures the nature of fact finding in asylum cases and the operation of onward rights of challenge An examination as to how the tensions inherent in the idea of administrative justice are manifested in the context of a tribunal system responsible for making potentially life or death decisions this book fills a gap in the literature and will be of value to those interested in administrative law and asylum adjudication

From Soldiers to Politicians Jeroen de Zeeuw, 2008 In the transition from war torn societies to stable multiparty democracies what is the role of former rebel leaders Can rebel movements effectively transform themselves from military to political organizations From Soldiers to Politicians explores when and how militias succeed in reorienting their goals and practices toward legitimate political activities and how external actors can support that practice The authors present eight theoretically grounded country studies focusing in each on the historical background of the rebel movement its attempted or successful transformation into a political party and the factors explaining success or failure Bridging the academic policy divide they identify concrete lessons from previous transformations processes as well as options for future international involvement

Survey of Current Affairs, 1985 **Refugee Roulette** Jaya Ramji-Nogales, Andrew I. Schoenholtz, Philip G. Schrag, 2011-04-29 The first analysis of decisions at all four levels of the asylum adjudication process the Department of Homeland Security the immigration courts the Board of Immigration Appeals and the United States Courts of Appeals The data reveal tremendous disparities in asylum approval rates even when different adjudicators in the same office each considered large numbers of applications from nationals of the same country After providing a thorough empirical analysis the authors make recommendations for future reform From publisher description **Small Arms, Big Impact**
