Un Amour De Descartes:

Descartes's Theory of Action Anne Davenport, 2006-07-01 This volume has a single goal to argue that Descartes's most fundamental discovery is not the epistemological subject but rather the underlying free agent without whom no epistemological subject is possible This fresh interpretation of the Cartesian cogito is defended through a close reading of Descartes's masterpiece the Meditations Special attention is paid to the historical roots of Descartes's interest in free agency particularly his close ties to the French School of spirituality Three aspects of Descartes's personal evolution are considered his aesthetic evolution from Baroque concealment to Classicism his political evolution from feudal nostalgia to modern secularism and his spiritual evolution from Stoic wisdom to active engagement in the world through the scientific project

How the French Think Sudhir Hazareesingh, 2015-09-22 An award winning historian presents an absorbing account of the French mind shedding light on France's famous tradition of intellectual life Why are the French such an exceptional nation Why do they think they are so exceptional The French take pride in the fact that their history and culture have decisively shaped the values and ideals of the modern world French ideas are no less distinct in their form while French thought is abstract stylish and often opaque it has always been bold and creative and driven by the relentless pursuit of

innovation In *How the French Think* the internationally renowned historian Sudhir Hazareesingh tells the epic and tumultuous story of French intellectual thought from Descartes Rousseau and Auguste Comte to Sartre Claude L. Strauss and Derrida He shows how French thinking has shaped fundamental Western ideas about freedom rationality and justice and how the French mind set is intimately connected to their own way of life in particular to the French tendency towards individualism their passion for nature their celebration of their historical heritage and their fascination with death Hazareesingh explores the French veneration of dissent and skepticism from Voltaire to the Dreyfus Affair and beyond the obsession with the protection of French language and culture the rhetorical flair embodied by the philosophes which today's intellectuals still try to recapture the astonishing influence of French postmodern thinkers including Foucault and Barthes on postwar American education and life and also the growing French anxiety about a globalized world order under American hegemony *How the French Think* sweeps aside generalizations and easy stereotypes to offer an incisive and revealing exploration of the French intellectual tradition Steeped in a colorful range of sources and written with warmth and humor this book will appeal to all lovers of France and of European culture **Descartes's Fictions** Emma Gilby, 2019-03-15

Descartes's Fictions traces common movements in early modern philosophy and literary method Emma Gilby reassesses the significance of Descartes's writing by bringing his philosophical output into contact with the literary treatises exempla and debates of his age She argues that humanist theorizing about poetics represents a vital intellectual context for Descartes's work She offers readings of the controversies to which this poetic theory gives rise with particular reference to the genre of tragicomedy questions of verisimilitude or plausibility and the figures of Guez de Balzac and Pierre Corneille Drawing on what Descartes says about and to his many contemporaries and correspondents embedded in the early modern republic of letters this volume shows that poetics provides a repository of themes and images to which he returns repeatedly fortune method error providence passion and imagination for instance Like the poets and theorists of his age Descartes is also drawn to the forms of attention that people may bring to his work This interest finds expression in the mature Cartesian metaphysics of the *Meditations* as well as later in the moral philosophy of his correspondence with Elisabeth of Bohemia or the *Passions of the Soul* This volume thus bridges the gap between Cartesian criticism and late humanist literary culture in France

La Rochefoucauld and the Seventeenth-century Concept of the Self Vivien Thweatt, 1980 *LES YEUX DE LA NUIT* Élie Fleurant, 2013-07-23 These poems are written with a lot of emotion and passion Some of them talk about relationships religions one's beliefs and most especially love The author wants his word to be read by people who feel the same emotions he had when he wrote his poetry *Spinoza* Edwin M. Curley, Pierre-François Moreau, 1990 The proceedings of the first major international conference on the philosophy of Spinoza to be held in the United States are published here Contained are papers on all aspects of Spinoza's thought by 31 distinguished scholars from the United States Europe Israel and Australia including Jonathan Bennett Alan Donagan Margaret Wilson Amie Rorty Richard Popkin Jean Marie Beyssade

Alexandre Matheron, Pierre Balibar, Pierre Macherey, Emilia Giancotti, Hubertus Hubbeling, and Yirmiyahu Yovel. Topics discussed are: Metaphysics, Epistemology, and Philosophy of Mind, Psychology, Moral, Political, and Social Philosophy, and Spinoza's influence. *Revue des deux mondes*, 1893. **Idées** Alain, 2023-01-12. Je me suis proposé de faire en sorte qu'il ne manque rien de cet ouvrage de ce qui peut donner un aperçu de la philosophie. Puissant, veilleur d'esprits, grand sophiste et admirable professeur, Alain a marqué profondément son époque et ses disciples et a laissé traverser ses écrits un enseignement durable. Ils expriment son hostilité au pouvoir et sa méfiance à l'égard des systèmes. Ce volume dont les textes sont consacrés successivement à Platon, Aristote, Descartes, Hegel et Comte forme un ensemble de remarquables commentaires et peut être considéré comme une vivante introduction à la philosophie.

Les facultés de l'âme à l'âge classique Chantal Jaquet, Tamás Pavlovits, 2006. **Racine's Roman Tragedies**, 2022-01-17. In two of his most famous plays, *Britannicus* and *Bernice*, Racine depicts the tragedies of characters trapped by the ideals, desires, and cruelties of ancient Rome. This international collection of essays deploys cutting-edge research to illuminate the plays and their contexts. For Racine, Rome is more than a location; it is a set of values and traditions, a space of opportunity and oppression. The contributors to this volume examine Racine's stagecraft, his exploration of time and space, sound and silence, and the ways in which he develops his own distinctive understanding of tragedy. The reception of his plays by contemporaries and subsequent generations also features. In Racine's hands, Rome becomes a state of mind haunted by both past and future. This book is dedicated to Richard Parish, who passed away on January 1st, 2022, just before publication. We would like to dedicate this collection of essays to his memory.

Mémoires Concernant Christine Reine de Suede, Johan Arckenholtz, 1760. **History of Linguistics 2008** Gerda Hassler, Gesina Volkmann, 2011. This volume contains a selection of papers presented at the 11th International Conference on the History of the Language Sciences, Potsdam 2008, which are especially representative of the concerns of the conference and its thematic range. The reflection about language and the individual languages has characterized cultures since ancient times and has brought forth different traditions of the language sciences. The contributions cover the period from antiquity to contemporary history. In addition to terminological and social history approaches, they also include research results based on corpora or which reconstruct theoretical approaches. More than other scholars, linguists are turning to the history of their science for answers to current questions. This underscores the value of the history of language sciences for understanding the present state of linguistics and its development. Interdisciplinarity is necessary for the research of many issues, and manifestations of language make historical reflections on the disciplines indispensable.

Un amour de Descartes Jean-Luc Quoy-Bodin, 2013. C'est le temps où Rembrandt et Descartes sont presque voisins.
