Un Monde Du Travail Destructeur:

Un Monde Du Travail Destructeur Jean-Claude Tarby, 2013-02 La souffrance au travail prend des formes différentes au fil de l'évolution de la société. Aujourd'hui avec la crise les exigences de compétitivité sont telles que certaines entreprises ne reculent devant rien pour les atteindre se transformant ainsi en machines à tuer. La vie au travail est devenue un enfer dans lequel le salarié s'alène davantage qu'il ne s'épanouit. L'auteur JC TARBY aborde depuis son plus jeune âge en connaissance de cause la souffrance au travail. Il établit un lien direct entre l'existence de celle-ci et le mode de production capitaliste. L'essai est jalonné d'exemples précis et de témoignages qui immergent le lecteur dans l'entreprise et illustrent avec force les idées clefs. La souffrance au travail une question d'actualité qui ne sera résolue selon l'auteur que par un changement structurel des organisations et des méthodes de management. C'est toute la vie au travail qu'il faut s'atteler à repenser.

Réécriture Des Mythes Joëlle Cauville, 1997 Définir de façon univalente la notion de mythe et celle d'utopie semble en soi une entreprise tout à fait utopique. Par ailleurs jumeler les deux notions celle du mythe et celle d'utopie relève d'un processus de réflexion qui peut facilement être à double tranchant. Le mythe construction par excellence de l'imaginaire humain ne se situe-t-il pas ailleurs que dans un non-lieu et l'utopie quant à elle ne fait-elle pas écho au mythe à la fois s'en inspirant le niant et le transformant. Redondance possible et aussi parfois refus des deux domaines à admettre leur interdépendance cheminement parallèle surtout et création commune de ce qui en fin de compte s'avère mythe transformé utopie revêtue. Toutefois mythes et utopies quels que soient la position choisie le point de vue défendu semblent faire bon ménage à en juger par ce projet avec dix-neuf textes couvrant principalement la littérature contemporaine des femmes mais puisant parfois aux œuvres antérieures qui ont déjà préparé le terrain en offrant des visions d'existences idylliques ne serait-ce que littéraires.

The Military and Colonial Destruction of the Roman Landscape of North Africa, 1830-1900 Michael Greenhalgh, 2014-05-08 The French invaded Algeria in 1830 and found a landscape rich in Roman remains which they proceeded to re-use to support the constructions such as fortresses barracks and hospitals needed to fight the natives who continued to object to their presence and to house the various colonisation projects with which they intended to solidify their hold on the country and to make it both modern and profitable. Arabs and Berbers had occasionally made use of the ruins but it was still a Roman and Early Christian landscape when the French arrived. In the space of two generations this was destroyed just as were many ancient remains in France in part because real architecture was Greek not Roman.

Le sens d'une vie Jean-Claude Tarby, 2019-08-04 À travers son témoignage l'auteur invite la réflexion sur une série de sujets fondamentaux et sociétaux comme la vie au travail les mouvements sociaux l'apprentissage la santé les institutions l'actualité politique l'économie de marché et surtout l'avenir de notre société. Le fil conducteur de son raisonnement consiste à partir d'expériences vécues actualiser la pensée afin de tracer les enjeux et perspectives dans les différents domaines évoqués.
