International Handbook of Urban Education William T. Pink, George W. Noblit, 2008-09-03 It is evident that urban education has become the central focus of educators at the present time In the U S for example almost one third of all school age children attend schools in large urban school districts It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic What has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea Rather we have discovered that the local context shapes in critically important ways what will be effective at the school level The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the *International Handbook of Urban Education* An important focus of the *International Handbook of Urban Education* will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region An important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education *Ancient and Indigenous Wisdom Traditions in African and Euro-Asian Contexts* Ehaab Abdou, Theodore Zervas, 2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures histories and wisdom traditions With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures it includes unique contributions from scholars studying these questions in various contexts The book offers a range of important studies from key African and Euro Asian contexts including Afghanistan Albania Greece Iran

South Africa Sweden T rkiye and Zimbabwe The various chapter contributions address and discuss nuances of each of the contexts under study The contributions also help highlight some key commonalities across these contexts including how dominant discourses and various forces have historically shaped and continue to shape and reproduce such omissions misrepresentations and marginalization In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures the book charts a path forward towards more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond It will appeal to scholars researchers undergraduate and graduate students with interests in Indigenous education curriculum studies citizenship education history of education religion and educational policy *Report of the Presidential Commission of Inquiry Into Education and Training Zimbabwe*. Violence and Memory in Zimbabwean Literature Tanaka Chidora,2025-12-01 This book investigates how Zimbabwean literary texts subvert state sponsored amnesia when it comes to the many forms of past and ongoing political violence in Zimbabwe Zimbabwean Literature provides an important space for confronting the past and reflecting on how violence continues into the present day This violent past was forgotten either through the promise of violence against those who sought to remember or by depicting the violence as a necessary tool of a never ending decolonisation process or by appealing to the logic of letting bygones be bygones For instance by claiming that the five years of the Gukurahundi genocide were a moment of madness Robert Mugabe set a climate of state sponsored amnesia which has persisted through subsequent acts of state violence and into the Mnangagwa era Drawing on key works by Shimmer Chinodya Alexander Kanengoni Yvonne Vera Novuyo Rosa Tshuma Brian Chikwava Chenjerai Hove Panashe Chigumadzi and NoViolet Bulawayo this book investigates how fictional works challenge this state sponsored amnesia in relation both to Gukurahundi and other past and ongoing forms of violence Bringing together iconic literary texts from 1980 to 2022 the book draws a common thread through the texts connected histories and highlights their role in de silencing the past Situated at the interface of memory studies and literary criticism this book will be of interest to researchers across the fields of African literature politics development and history Studies in Art Education ,2003 Zimbabwe Brian Raftopoulos,Tyrone Savage,2004 The author is from the Institute of Development Studies at the University of Zimbabwe He examines the paradox ensuing from the Lancaster House Settlement at Zimbabwe s independence that whilst colonial rule was ended the framework was provided for continued white privilege on the basis of control of the economy by this elite and through them transnational capital He analyses the responses of the ruling including official elite the black petty bourgeoisie and the group associated with the former Rhodesian Front
