

Chapter 6 AP Statistics PRACTICE Test

Section I: Multiple Choice Select the best answer for each question.

Questions T6.1 and T6.2 refer to the following setting. A psychologist studied the number of puzzles that subjects were able to solve in a five-minute period while listening to soothing music. Let X be the number of puzzles completed successfully by a subject. The psychologist found that X had the following probability distribution:

Value of X :	1	2	3	4
Probability:	0.2	0.4	0.3	0.1
$x \cdot p_i$:	.2	.8	.9	.4

T6.2. Suppose that three randomly selected subjects solve puzzles for five minutes each. The expected value of the total number of puzzles solved by the three subjects is

- (a) 1.8. (b) 2.3. (c) 2.5. (d) 6.9. (e) 7.5.

T6.3. Suppose a student is randomly selected from your school. Which of the following pairs of random variables are most likely independent?

- (a) X = student's height; Y = student's weight NOT IND
 (b) X = student's IQ; Y = student's GPA NOT IND
 (c) X = student's PSAT Math score; Y = student's PSAT Verbal score NOT IND
 (d) X = average amount of homework the student does per night; Y = student's GPA NOT IND
 (e) X = average amount of homework the student does per night; Y = student's height INDEPENDENT — ONE DOES NOT INFLUENCE THE OTHER

T6.4. A certain vending machine offers 20-ounce bottles of soda for \$1.50. The number of bottles X bought from the machine on any day is a random variable with mean 50 and standard deviation 15. Let the random variable Y equal the total revenue from this machine on a given day. Assume that the machine works properly and that no sodas are stolen from the machine. What are the mean and standard deviation of Y ?

- (a) $\mu_Y = \$1.50$, $\sigma_Y = \$22.50$
 (b) $\mu_Y = \$1.50$, $\sigma_Y = \$33.75$
 (c) $\mu_Y = \$75$, $\sigma_Y = \$18.37$
 (d) $\mu_Y = \$75$, $\sigma_Y = \$22.50$
 (e) $\mu_Y = \$75$, $\sigma_Y = \$33.75$

T6.1. What is the probability that a randomly chosen subject completes at least 3 puzzles in the five-minute period while listening to soothing music?

- (a) 0.3
 (b) 0.4
 (c) 0.6
 (d) 0.9
 (e) Cannot be determined

$$P(X \geq 3) = .3 + .1 = .4$$

$$E(X) = \sum x_i p_i = .2 + .8 + .9 + .4 = 2.3$$

$$E(3 \text{ subjects}) = 2.3 + 2.3 + 2.3 = 6.9$$

$$X: \mu_X = 50 \quad \sigma_X = 15$$

$$Y = \text{Total Revenue } (\$1.50 \cdot X)$$

$$\mu_Y = 50 \cdot \$1.50 = \$75$$

$$\sigma_Y = 15 \cdot \$1.50 = \$22.50$$

Stats Test Tps4e For Ap:

The Practice of Statistics Daren S. Starnes, Dan Yates, David S. Moore, 2010-12-17 View a Panopto recording of textbook author Daren Starnes detailing ten reasons the new fourth edition of *The Practice of Statistics* is the right choice for the AP Statistics course Watch instructor video reviews here Available for your Fall 2010 Course Request Sample Chapter 3 here The most thorough and exciting revision to date *The Practice of Statistics 4e* is a text that fits all AP Statistics classrooms Authors Starnes Yates and Moore drew upon the guidance of some of the most notable names in AP and their students to create a text that fits today's classroom The new edition comes complete with new pedagogical changes including built in AP testing four step examples section summaries Check Your Understanding boxes and more *The Practice of Statistics* long stands as the only high school statistics textbook that directly reflects the College Board course description for AP Statistics Combining the data analysis approach with the power of technology innovative pedagogy and a number of new features the fourth edition will provide you and your students with the most effective text for learning statistics and succeeding on the AP Exam

Cracking the AP Statistics Exam Madhuri S. Mulekar, 2009-01-06 Provides techniques for achieving high scores on the AP statistics exam and includes two full length practice tests [AP Statistics](#) Michael D'Alessio, 2011-01-01 Provides a concise overview of AP statistics featuring targeted reviews on materials that will be tested test taking tips and strategies and other resources

AP Statistics Research and Education Association, 1997-01-01 Get the AP college credits you've worked so hard for Our savvy test experts show you the way to master the test and score higher This new and fully expanded edition examines all AP Statistics areas including in depth coverage of univariate and bivariate data measures of dispersion sampling and hypothesis testing The comprehensive review covers every possible exam topic exploring data planning a study anticipating patterns and statistical inferences Features 6 full length practice exams with all answers thoroughly explained Follow up your study with REA's test taking strategies powerhouse drills and study schedule that get you ready for test day DETAILS Comprehensive up to date subject review of every AP Statistics topic used in the AP exam Study schedule tailored to your needs Packed with proven key exam tips insights and advice 6 full length practice exams All exam answers are fully detailed with easy to follow easy to grasp explanations TABLE OF CONTENTS About Research non graphing calculators are allowed only if they have the computational capabilities described previously The following however are not permitted powerbooks and portable computers pocket organizers electronic writing pads pen input devices or devices with typewriter style or QWERTY keyboards ABOUT THE REVIEW SECTIONS As mentioned earlier this book has a review chapter for each of the four topics covered on the exam The following are the four review chapters in this book that cover the topics on the AP Statistics Exploring Data Planning a Study Anticipating Patterns Statistical Inferences The review chapters provide a thorough discussion of the material tested on the exam By studying the review chapters and by taking the practice tests you can prepare yourself to score high on the AP Statistics exam SCORING THE EXAM The multiple choice section of the exam is

scored by crediting each correct answer with one point and deducting one fourth of a point for each incorrect answer. Unanswered questions receive neither credit nor deduction. The free response questions are graded by readers chosen from around the country for their familiarity with the AP Program. Each free response question is read and scored with the reader providing the score on a 0 to 4 scale, 0 being the lowest and 4 the highest. The free response questions are scored based on the statistical knowledge and communication the student used to answer the question. The statistical knowledge criteria include identifying the important concepts of the problem and demonstrating statistical concepts and techniques that result in a correct solution of the problem. The communication criteria include an explanation of what was done and why along with a statement of conclusions drawn. Once the free response questions have been graded by all of the readers, the scores are converted. The open ended questions count as 75% of the free response score; the investigative task question counts as 25%.

SCORING THE MULTIPLE CHOICE SECTION For the multiple choice section use this formula to calculate your raw score:
$$\text{Raw Score} = \frac{\text{Number Right} - \frac{1}{4} \text{Number Wrong}}{4}$$
Round to the nearest whole number. Note: Do not include unanswered questions in the formula.

SCORING THE FREE RESPONSE QUESTIONS For the free response section use this formula to calculate your raw score:
$$\text{Raw Score} = \frac{5 \times \text{Open Ended Questions} + 1 \times \text{Investigative Task Question}}{5}$$

THE COMPOSITE SCORE To obtain your composite score use the following method:
$$\text{Composite Score} = \frac{\text{Multiple Choice Raw Score} + \text{Free Response Raw Score}}{2}$$

AP grades are interpreted as follows: 5 extremely well qualified, 4 well qualified, 3 qualified, 2 possibly qualified, and 1 no recommendation.

SCORES THAT RECEIVE COLLEGE CREDIT AND OR ADVANCED PLACEMENT Most colleges grant students who earn at least a 3 college credit and or advanced placement. You should check with your school guidance office about specific college requirements.

STUDYING FOR YOUR AP EXAMINATION It is never too early to start studying. The earlier you begin, the more time you will have to sharpen your skills. Do not procrastinate. Cramming is not an effective way to study since it does not allow you the time needed to learn the test material. It is very important for you to choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning to study while others may choose to study at night before going to sleep. Other students may study during the day while waiting on a line or even while eating lunch. Only you can determine when and where your study time will be most effective. But be consistent and use your time wisely. Work out a study routine and stick to it. When you take the practice exam, try to make your testing conditions as much like the actual test as possible. Turn your television and radio off and sit down at a quiet table free from distraction. Make sure to time yourself. Complete the practice test, score your test, and thoroughly review the explanations for the questions you answered incorrectly. However, do not review too much during any one sitting. Concentrate on one problem area at a time by reviewing the question and explanation and by studying our review until you are confident that you completely understand the material. Since you will be allowed to write in your test booklet during the actual exam, you may want to write in the margins and spaces of this book when practicing. However, do not make miscellaneous notes on

your answer sheet Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering Keep track of your scores This will enable you to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover the topics causing you difficulty as this will build your skills in those areas To get the most out of your studying time we recommend that you follow the Study Schedule It details how you can best budget your time

TEST TAKING TIPS Although you may be unfamiliar with tests such as the Advanced Placement exams there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Listed below are ways to help yourself become accustomed to the AP exam some of which may also be applied to other standardized tests Become comfortable with the format of the AP Examination in Statistics When you are practicing to take the exam s simulate the conditions under which you will be taking the actual test s You should practice under the same time constraints as well Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual test much more confidently Know the directions and format for each section of the exam Familiarizing yourself with the directions and format of the different test sections will not only save you time but will also ensure that you are familiar enough with the AP exam to avoid anxiety and the mistakes caused by being anxious Work on the easier questions first If you find yourself working too long on one question make a mark next to it in your test booklet and continue After you have answered all of the questions that you can go back to the ones you have skipped Use the process of elimination when you are unsure of an answer If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer Questions not answered will not be counted Be sure that you are marking your answer in the oval that corresponds with the correct item in the test booklet Since the multiple choice section is graded by machine marking the wrong answer will throw off your score

5 Steps to a 5 500 AP Statistics Questions to Know by Test Day Jennifer Phan,Jerimi Ann Walker,Divya Balachandran,Thomas A. editor - Evangelist,2012-01-12 Organized for easy reference and crucial practice coverage of all the essential topics presented as 500 AP style questions with detailed answer explanations 5 Steps to a 5 500 AP Statistics Questions to Know by Test Day is tailored to meet your study needs whether you ve left it to the last minute to prepare or you have been studying for months You will benefit from going over the questions written to parallel the topic format and degree of difficulty of the questions contained in the AP exam accompanied by answers with comprehensive explanations Features 500 AP style questions and answers referenced to core AP materials Review explanations for right and wrong answers Additional online practice Close simulations of the real AP exams Updated material reflects the latest tests Online practice exercises
