

Weaning Stages Explained

Stage 1

Weaning usually begins between 4-6 months. Initially, your baby will be able to be spoon-fed and swallow purees and mashed foods. Finger foods are not recommended if starting weaning before 6 months.

Stage 3

Your baby will usually be between 9-12 months. At this stage they will be able to attempt self-feeding with a spoon, and will be able to self-feed harder finger foods and some family foods.

Stage 2

Your baby will move onto stage 2 weaning usually between 6-9 months. At this stage they will be able to eat thicker mashed foods and purees and also soft finger foods, which they can self-feed. If starting solids at 6 months, you can also start directly with finger foods.
