Addiction John Hoffman,Susan Froemke,2007-03-06 One question that anyone who has witnessed addiction up close inevitably asks is Why can t they just stop For decades the question has confounded addicts their families and the doctors and specialists trying to help them Now it can finally be answered Thanks to major leaps in the scientific understanding of addiction an entirely new portrait of this frightening disease has come into focus The new science tells us that addicts in part are unable to quit using drugs or alcohol because chemical changes in their brains prevent them from doing so In this penetrating look at how addiction works editors John Hoffman and Susan Froemke producers of the HBO documentary series
