Handbook of Research on Updating and Innovating Health Professions Education: Post-Pandemic Perspectives Ford, Channing R., Garza, Kimberly B., 2021-10-08 The outbreak of the Coronavirus in early 2020 resulted in unprecedented changes to health professions education The pervasive stay at home orders resulted in faculty who were trained for preparing the next generation of health professionals in a traditional learning environment throwing out their lesson plans and starting anew New approaches to teaching and learning were created quickly and without the typical extensive planning which introduced several challenges However lessons learned from these approaches have also resulted in increased technology adoption innovative assessment strategies and increased creativity in the learning environment The Handbook of Research on Updating and Innovating Health Professions Education Post Pandemic Perspectives explores the various teaching and learning strategies utilized during the pandemic and the innovative approaches implemented to evaluate student learning outcomes and best practices in non traditional academic situations and environments The chapters focus specifically on lessons learned and best practices in health professions education and the innovative and exciting changes that occurred particularly with the adoption and implementation of technology It provides

resources and strategies that can be implemented into the current educational environments and into the future This book is ideal for inservice and preservice teachers administrators teacher educators practitioners medical trainers medical professionals researchers academicians and students interested in curriculum course design development of policies and procedures within academic programs and the identification of best practices in health professions education

Centers of Excellence Darrel W. Staat,2022-07-11 There are many Centers of Excellence COE in community colleges and universities in the United States Presently a number of these provide approximately an extra year beyond various existing degrees Most of these COEs deal with a variety of training and educational needs and work directly with the appropriate business communities They provide students with additional training and expertise beyond the normal degree programs This gives graduates specific educational training on the latest developments in their area of expertise which makes them more employable and sought out for by businesses Centers of Excellence Niche Methods to Improve Higher Education in the 21st Century informs institutions of higher education about COEs that currently exist so interested administrators may initiate Centers of Excellence that are needed in their service areas Furthermore the information in this book will assist community colleges and universities in learning how a Center is activated funded and supported The Centers are valuable to students higher education institutions and the business community
