Len n Moreno Garc s Vice President Ecuador Little attention has been paid to the fact that for every person killed by gun violence as many as six victims will survive often with severe disabilities The long term physical and psychological damage social and economic impacts can no longer be overlooked Bringing together voices of survivors as well as health medical rehabilitation and legal concerns this book represents a significant step forward outlining key issues for policy practice and intervention It is a must read for anyone concerned about human rights and violence and that should mean all of us

Nora Ellen Groce Director Leonard Cheshire Disability Inclusive Development Centre University College London UK Every year hundreds of thousands of victims of gun violence together with their families experience the real costs of the availability and misuse of arms in our communities For these victims to attain their basic human rights so often denied them we need a better understanding of their predicament challenges and needs Gun Violence Disability and Recovery with its comprehensive overview and analysis will critically inform our efforts to develop and implement better policies and practices to enhance the realisation of the rights of survivors of armed violence including implementation of the Arms Trade Treaty

Espen Barth Eide former Minister of Foreign Affairs Norway The reality of survivors of gun violence my reality is so often lost in narrow political and economic interests This volume gives me hope that attention to life after gun violence will begin to receive long overdue attention and contribute to the long haul effort of improving services for survivors as well as working towards accountability about the arms trade

Shelley Barry filmmaker South Africa International development goals including the Millennium Development Goals will not be achieved if the rights of people with disabilities are not met Through a broad range of case studies and examples from low and middle income

countries this book shows us how States could do better Let us hope that its message is heard As a survivor of gun violence myself I take a keen interest in any effort to effect gun control particularly across Africa This is the Responsibility in Small Things Monde Ndandani,2020-08-24 Aspiring to be upright and honourable This book is about metaphorical bricks small things that make walls of all types of buildings within which people work and live The figurative walls in the pages of this book are the Noah social types of the holy Bible Behaviour is the function of character A well behaved person young and old develops to be a paragon of virtue a rare species amongst the peoples of this world Universal and generic good behavior project starts with casual greeting one s family members in the morning and after intervals of absence from one s home Greeting people anywhere should be spontaneous Children learn being courteous from their homes same as telling the truth all the time giving lies no space Hence building average good and steadfast citizenry is the responsibility of each homestead and family If being sturdy is the essential feature of leadership then every citizen in any country in the world can have her his turn to lead **Quarterly News Bulletin** Geological Society of South Africa,1983
