Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. *Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities* shares how institutions in the developing world and less privileged communities have reimagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course, and activity levels. The chapters will cover a variety of learning environments from rural settings to less developed countries and more, and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations.

Hidden Pretoria Johan Swart, 2019-10-01 Despite being South Africa's capital city, Pretoria has often played a supporting role to bold and brash Johannesburg and Cape Town's cosmopolitan charms. However, when it comes to architectural heritage, the Jacaranda City is well-endowed. From the skyline-dominating Union Buildings and Voortrekker Monument to the imposing edifices of its administrative precincts, Pretoria might be deserving of a second moniker: the city of sandstone, brick, and granite. But when you look beyond the impressive facades, soaring columns, and linear planes of buildings that were intended to convey power and authority, you will find light-filled interiors embellished with decorative touches that are only hinted at from the outside. Murals, mosaics, domes, galleries, stained glass windows, gleaming brass, and impressive woodwork are often hidden from view behind doors that are closed to the public. And even those museums, buildings, and places of worship that are open to all have noteworthy architectural and design features that are easily overlooked. The history of the city and of the country has been played out in many of the buildings featured in *Hidden Pretoria*. This book captures facets of our diverse heritage, historic and contemporary, so that a new generation might recognise the need to

embrace the past in order to build our common future *Intellectual Property and General Legal Principles* Graeme B. Dinwoodie, 2015-02-27 The rule of *lex specialis* serves as an interpretative method to determine which of two contesting norms should be used to govern In this book the *lex specialis* label is broadly applied to intellectual property and connects a series of questions What **The African Union (AU)** Konstantinos D. Inclusive Businesses in Agriculture Wytske Chamberlain,Ward Anseeuw,2017-03-30 Inclusive business is hailed as a win win scenario for the development of poor communities yet there is little insight into how these inclusive businesses work and more importantly for whom This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining the structures they implement the actors involved and whether they are effectively inclusive of smallholders It presents a range of case studies and is therefore empirically based and practically oriented By offering a critical assessment of inclusive businesses overall it allows for a better perception of what works where and under which conditions It provides useful insights that will benefit smallholders agri businesses support groups policy makers and investors who are willing to promote more inclusive businesses that foster a better integration of smallholders into commercial value chains and a more equitable and sustainable agricultural sector **The Cultural Authority of Science** Martin Bauer,Petra Pansegrau,Rajesh Shukla,2018-09-24 The cultural authority of science is the authority that is granted to science in any particular context This authority is as much a matter of image and perceived legitimacy as of statutory guarantee However while authority can be charismatic based on tradition or based on competence we would assume that science aims to be an authority of competence To what extent does science have the last word or stand above opinion on public issues This Indo European led collaboration aims to map the cultural authority of science and to construct a system of indicators to observe this science culture based on artefacts science news analysis and espoused beliefs and evaluations public attitude data Indeed through a series of studies the authors examine the cultural authority of science in light of the

challenges posed by European Asian African and American developments and debates In particular two main ideas are examined the Lighthouse model whereby science is shining into a stormy sea of ignorance and mistrust and the Bungee Jump model which demonstrates how science occasionally experiences a rough ride against a backdrop of goodwill Presenting expertise in discourse analysis computer assisted text analysis and largescale survey analysis The Cultural Authority of Science will be of interest to a global audience concerned with the standing of science in society In particular it may appeal to scholars and students of fields such as sociology of science science communication science studies scientometrics innovation studies and social psychology

Rural Education Across the World Simone White, Jayne Downey, 2021-03-22 This book brings together authors from United States South Africa United Kingdom China Canada and Australia to provide insights and case studies from across a range of contexts to explore the interplay between the notions of rurality innovation and education The book reveals a hopeful and resilient approach to innovative rural education and scholarship collectively and provides important evidence to speak against an often deficit view of rural education Three patterns are revealed namely the importance of place attentive strategies the importance of joined up alliances to maximise resources and networks and finally the need to utilize alternative methodologies and frameworks that have a starting point of difference rather than deficit for any rural initiative or approach By drawing from international examples and responding in innovative ways to rural education challenges this book provides an opportunity to share international insights into innovations interventions and partnerships that promote and support rural education in its broadest sense

Insights into Policies and Practices on the Right to Development Carol Chi Ngang, Serges Djoyou Kamga, 2020-10-06 As the world continues to grapple with a range of practical development challenges that are directly linked to livelihood concerns about human well being and declining living standards often overlooked is the human right to development which remains largely unfulfilled In the face of successive global initiatives seeking to remedy these challenges it has become urgent to ask what the universal recognition of the right to development implies if it cannot be translated into improved well being for impoverished peoples around the world The contributors in this timely volume argue that setbacks to development are deeply rooted in the failure to implement the right to development which by nature guarantees equality of opportunities and equitable redistribution of the resources that contribute to better living standards Assessing policy and practical measures or the lack thereof they offer practical suggestions for implementation that will make the right to development a reality for everyone
