**Limpopo's Legacy** Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba      **The South African State Transformed?** Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

**The Politics of Custom** John L. Comaroff, Jean Comaroff, 2018-03-08 How are we to explain the resurgence of customary chiefs in contemporary Africa Rather than disappearing with the tide of modernity as many expected indigenous sovereigns are instead a rising force often wielding substantial power and legitimacy despite major changes in the workings of the global political economy in the post Cold War era changes in which they are themselves deeply implicated This pathbreaking volume edited by anthropologists John L Comaroff and Jean Comaroff explores the reasons behind the increasingly assertive politics of custom in many corners of Africa Chiefs come in countless guises from university professors through cosmopolitan businessmen to subsistence farmers but whatever else they do they are a critical key to understanding the tenacious hold that traditional authority enjoys in the late modern world Together the contributors explore this counterintuitive chapter in Africa s history and in so doing place it within the broader world making processes of the twenty first century

Sparks, 2023-05-18 Southern Africa s maritime interests are considerable its oceans and ports are essential to the wealth of the region are crucial for trade and are an important source of employment food and energy However regional governments do not place sufficient attention on the Blue Economy and its potential to stimulate economic growth Of the 17 UN Sustainable Development Goals goal Number 14 Life Below Water is the least funded Less than 1% of Official Development Assistance goes toward this goal and even private investment and funding from philanthropic organizations is grossly inadequate to meet Africa s blue economy needs It is vital for the international community to face up to the challenges of Africa s Blue Economy and start working on solutions and for southern Africa s Blue Economy policies and goals to be expanded Just as sustainable development green initiatives show promise so too could Blue Economy projects and activities Southern Africa s rich coastal and marine resources need to be managed on both a national and regional level if they are to be used in a long term sustainable way This book provides for

education Motinyane Mletshe and Tshongolo as editors have produced a book that fills this gap In this timely collection of 21 chapters written in African languages and English the contributors offer a critique of both language practice in the classroom as well as language planning policy creation and implementation challenges A timely and innovative contribution in the area of language in education teaching pedagogy as well as multilingualism Culture, philosophies and reforms in public administration for the globalizing world Edwin O.C. Ijeoma,Ogochukwu I. Nzewi,2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e g leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa s income inequality remains one of the highest in the world This setting constitutes the context of the research outcome published in this scholarly work **The Origin and Growth of Geography as a**

modern South Africa authors interrogate the complex dynamics of class formation economic empowerment and redress against the backdrop of broader macroeconomic policies They examine questions relating to whether B BEE policies are informed by strategies to change the structure of the economy These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation The relevant black empowerment experiences of countries such as the United States are also discussed The authors identify policy and programmatic interventions to forge the non racial future that the constitution enjoins South Africans to build
