House. Committee on Post Office and Civil Service. Subcommittee on Census and Population,1984 **Evaluating Comprehensive State Welfare Reform** Burt S. Barnow,Thomas Kaplan,Robert A. Moffitt,2000-03-01 The recent delegation of authority for welfare programs from the federal government to the states has stimulated increasingly complex and comprehensive reforms which seek in part to generate social messages that discourage dependency on public assistance promote work and influence family formation decisions The message sending emphasis of the new reforms and their comprehensiveness often makes them hard to evaluate through conventional experimental designs using treatment and control groups This book offers a lucid discussion of issues involved in evaluating the new reforms and applies those issues to the evaluation of welfare reform in one state Wisconsin which offers a leading example of comprehensive welfare reform The book opens with an overview of the different types of program evaluation and summarizes clearly the basic issues that are involved in their conduct A discussion of general evaluation strategies for the new welfare reforms such as the selection and use of counterfactuals is followed by consideration of both implementation and impact evaluations of the Wisconsin program The final section considers the evaluation of specific impacts of the Wisconsin program on economic well being family structure child care services child support child welfare and children with disabilities **New Serial Titles** ,1985 The Changing Food Assistance Landscape Craig Gundersen,1999 *The Changing Food Assistance Landscape* , **The**

Dynamics of Opportunity in America Irwin Kirsch,Henry Braun,2016-01-22 Across the country our children are beginning life from very different starting points Some have aspirations and believe they can be achieved For too many others aspirations are tempered if not dashed by the sobering realities of everyday life These different starting points place children on distinctly different trajectories of growth and development ultimately leading to vastly different adult outcomes How did we get to a place where circumstances of birth have become so determinative And what must we do within communities and across our country to better equalize opportunity for more Americans both young and old The editors of this volume contend that if as a nation we do nothing then we will continue to drift apart placing an unsustainable strain on the nation s social fabric and the character of its democracy Consequently understanding the dynamics governing the distribution and transmission of opportunity and transforming this understanding into policies and programs is critical for not only the life outcomes of individual Americans and their children but also the country as a whole The goal of Educational Testing Service s Opportunity in America initiative is to explore these powerful dynamics and to describe and convey them in a way that advances the national conversation about why we must take action and how best to do so This volume contains 14 chapters including an epilogue written by leaders from a range of fields including education economics demography and political science Collectively they not only illuminate key aspects of the problem but also offer suggestions of what policies programs

and changes in practices could begin to reverse the trends we are seeing Written in an engaging style this volume constitutes an essential foundation for informed discussion and strategic analysis **Strengths of the Social Safety Net in the Great Recession** Christopher J. O'Leary, David Stevens, Stephen A. Wandner, Michael Wiseman, 2019-08-22 The contributors in this book use administrative data from six states from before during and after the Great Recession to gauge the degree to which Supplemental Nutrition Assistance SNAP and Unemployment Insurance UI interacted They also recommend ways that the program policies could be altered to better serve those suffering hardship as a result of future economic downturns
