Unlikely Stories, Mostly Alasdair Gray, 2020-01-16 In this volume of stories and illustrations the author of *Poor Things* perfected the blend of visual and verbal elements that characterized his work. Financial Times In *The Crank* that Made the Revolution an enterprising inventor presents the world with his contribution to the Industrial Revolution an improved duck. In these and other short stories of the strange and fascinating Alasdair Gray reaffirms his reputation as one of Scotland's most original and important contemporary writers. In *Unlikely Stories Mostly* Alasdair Gray combines his surreal and darkly funny stories with original artwork to create a truly unique reading experience. This edition includes a postscript by the author and Douglas Gifford. The book is a wonder of ingenuity a varied and rich collection in which Gray's abilities as a visual artist and illustrator are placed not only beside but within the products of his fertile imagination as a writer. The Washington Post Not since William Blake has a British artist wed pictorial and literary talent to such powerful effect. Financial Times

Unlikely Stories, Mostly Alasdair Gray, 1997 Alasdair Gray's first book of short stories is a masterful collection that further established him as one of Scotland's most original writers. This edition marks the first appearance by Gray in the Canongate Classics list.

Alasdair Gray Rodge Glass, 2012-04-05 Alasdair Gray author of the modern classics *Lanark* *Poor Things* and 1982 Janine is without doubt Scotland's greatest living novelist. Since trying unsuccessfully to buy him a drink in 1998 Rodge Glass first tutee and then secretary to the author takes on the role of biographer charting Gray's life from unpublished and unrecognised son of a box maker to septuagenarian little grey deity as Will Self has called him. A Jewish Mancunian Boswell to Gray's Johnson Glass seamlessly weaves a chronological narrative of his subject's life into his own diary of meeting getting to know and working with the artist writer and campaigner to create a vibrant and wonderfully textured portrait of a literary great.

Alasdair Gray Stephen Bernstein, 1999-10 Since the publication of *Lanark* in 1981 Alasdair Gray has been a figure of importance in contemporary literature. Now through attention to mixed genre counter historical narrative and the thematics of memory this first study of Alasdair Gray's novels shows the coherence of the Scottish writer's varied body of work. Stephen Bernstein refuses to view Gray's work through the vague lens of postmodernism seeing Gray instead as a writer at home in a variety of literary traditions. Beginning by providing an American audience with backgrounds to Gray's work this study recounts the chronology of his publications and their reception by an international audience simultaneously placing his writing in the contexts of Scottish culture and literature.

Alasdair Gray Gavin Miller, 2005-01-01 Alasdair Gray's writing and in particular his great novel *Lanark* A Life in Four Books 1981 is often read as a paradigm of postmodern practice. This study challenges that view by presenting an analysis that is at once more conventional and more strongly radical. By reading Gray in his cultural and intellectual context and by placing him

within the tradition of a Scottish history of ideas that has been largely neglected in contemporary critical writing Gavin Miller re opens contact between this highly individualistic artist and those Scottish and European philosophers and psychologists who helped shape his literary vision of personal and national identity Scottish social anthropology and psychiatry including the work of W Robertson Smith J G Frazer and R D Laing can be seen as formative influences on Gray s anti essentialist vision of Scotland as a mosaic of communities and of our social need for recognition acknowledgement and the common life

though this is only half the story after which Bella and Victoria McCandless has her own say in the matter. Satirizing the classic Victorian novel *Poor Things* is a hilarious political allegory and a thought provoking duel between the desires of men and the independence of women from one of Scotland's most accomplished authors. Alasdair Gray is the author of over a dozen novels and short story collections including *Lanark* 1982, *Janine* and *Unlikely Stories Mostly*. **The Novel** Michael Schmidt, 2014-05-12 The 700 year history of the novel in English defies straightforward telling. Encompassing a range of genres it is geographically and culturally boundless and influenced by great novelists working in other languages. Michael Schmidt choosing as his travel companions not critics or theorists but other novelists does full justice to its complexity.

Ma(r)king the Text Joe Bray, Miriam Handley, Anne C. Henry, 2018-12-20 First published in 2000 this volume is a unique collection of essays which draws our attention to the importance of those textual elements traditionally ignored in literary criticism. These include punctuation, footnotes, epigraphs, typography, cover design, white space and marginalia features which significantly affect the meaning of a literary text. The first section of the book opens with a proposal for a new theory of punctuation. The essays which follow are devoted to detailed interpretations of particular marks in the work of individual writers including Spenser, Richardson and George Eliot. The consequences of this approach to the literary text are examined in the second section of the book which begins with a debate on editorial practice and responsibility and features insights from editors. Attention is drawn in particular to the special issues thrown up by dramatic texts, translations and electronic

editions The relationship of marks to the main text is far from subordinate and we cannot appreciate the full interpretative potential of a text without considering this The essays here compel us to assess the interaction of textual and literary meaning To mark a text is to make it *Postmodernist Fiction* Brian McHale,2003-09-02 In this trenchant and lively study Brian McHale undertakes to construct a version of postmodernist fiction which encompasses forms as wide ranging as North American metafiction Latin American magic realism the French New New Novel concrete prose and science fiction Considering a variety of theoretical approaches including those of Ingarden Eco Dolezel Pavel and Hrushovski McHale shows that the common denominator is postmodernist fiction s ability to thrust its own ontological status into the foreground and to raise questions about the world or worlds in which we live Exploiting various theoretical approaches to literary ontology those of Ingarden Eco Dolezel Pavel Hrushovski and others and ranging widely over contemporary world literature McHale assembles a comprehensive repertoire of postmodernist fiction s strategies of world making and unmaking *Reading the graphic surface* Glyn White,2018-02-28 This book critically engages with the visual appearance of prose fiction where it is manipulated by authors from alterations in typography to the deconstruction of the physical form of the book It reappraises the range of effects it is possible to create through the use of graphic devices and explores why literary criticism has dismissed such features as either unreadable experimental gimmicks or more recently as examples of the worst kind of postmodern decadence Through the examination of problematical texts which utilise the graphic surface in innovative and unusual ways including Samuel Beckett s Watt B S Johnson s Albert Angelo Christine Brooke Rose s Thru and Alasdair Gray s Lanark this book demonstrates that an awareness of the graphic surface can make significant contributions to interpretation
