The Psychologically Literate Citizen Dana Dunn,2013-01-01 The concepts of psychological literacy and the psychologically literate citizen promise to invigorate a new global approach to psychology education They pose a basic question What attributes and capabilities should

undergraduate psychology majors acquire Many psychological organizations have defined psychological literacy by guidelines and lists of student learning outcomes but although psychology educators across the globe have been working towards helping students to acquire these attributes over the past 50 years educators have only recently explicitly delineated attributes and learning outcomes and sought to develop appropriate learning teaching and assessment strategies including whole program approaches The contributors to this volume argue that psychological literacy is the most important outcome of an undergraduate psychology education and that psychologically literate citizens use their knowledge of psychology to problem solve in ethical and socially responsible ways that directly benefit their communities In this book a rich variety of international perspectives contribute to the development of the two key concepts of psychological literacy and the psychologically literate citizen Authors provide practical guidance for classroom psychology educators as well as curriculum developers and reviewers Ultimately they make the case for a paradigm shift in psychology education
