of medical practitioners in South Africa Like the other studies in the series this study involved developing an understanding of the professional milieu and professional labour market of social workers As the implementers of government social policy social work professionals have been at the forefront of grappling with the practicalities of the changes in focus approach and methods of social security and social service delivery since 1994 It examines developments in the education and training of social workers within the democratic dispensation the most significant of which is the development of a national standardised Bachelor of Social Work degree The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female and that enrolment has increased significantly However the study also shows that graduation trends have been negative and losses due to emigration are an additional concern Given the scarcity of these professionals against the demand for their services understanding the factors that contribute to this picture are critical to effective intervention

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are

the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates

Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology

Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness

Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

Protest in South Africa Heidi Brooks, Rekgotsofetse Chikane, 2024-01-23 Popular protest has become a regular feature of post 1994 South Africa As a young democracy born out of resistance we may understand the contemporary manifestations of protest as extensions of this broader history However it is notably in the context of formal democratic institutions that popular protest has become an increasingly normalised mode of influencing policy demanding service delivery and forcing change Protest is

constitutive of South Africa's democratic politics but also reflective of it. *Protest in South Africa: Rejection, Reassertion, Reclamation* explores the underpinnings of contemporary protest and both its short-term causes and structural drivers. Focusing on the surge of protest from the mid-2000s, this edited volume provides an overview of the complexity of protest action, the diversity of protest spaces and actors, and responses to protest from both citizens and state. The volume situates its analysis against the backdrop of the global wave of protest witnessed since the turn of the 21st century while examining protest in South Africa's local and historical contexts. Contributors to the volume examine protests in relation to, among other factors, provision of infrastructure and services, contestations around socio-economic development issues of citizenship and demands for inclusive democratic governance. Chapters also examine the role of women in protest action, the policing of protest, and the intersection of protest action with spaces of formal politics. The volume also alerts us to the darker side of protest and the destruction and division it may foment. It thus considers the prospects of South Africa's evolving, sometimes violent protest terrain for social and state stability and democratic progress. In the diversity of spaces, sectors, and communities of interests in which collective action has emerged, *Protest in South Africa: Rejection, Reassertion, Reclamation* shows how protest is underpinned by a rejection of the status quo, a reassertion of interests, and a reclaiming of the political and democratic space.

Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society Masenya, Tlou, Maggie, Bhuda, Monicca Thulisile, 2025-05-08. Indigenous knowledge is the comprehensive body of knowledge that locals accumulate from life experience, unofficial research, and close observation of their surroundings within a particular culture. It connects the entirety of nature and the components that sustain life to the survival of every human being. Additionally, it gives specific community conditions in respect to the environment and offers workable answers to people's problems. As a result, by preserving indigenous knowledge systems, indigenous knowledge may provide value to the community by offering innovative solutions to social, environmental, and economic issues. *Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society* explores the role of indigenous knowledge in the contemporary society. Furthermore, it discusses the importance of preserving and sharing indigenous knowledge for community development. Covering topics such as epistemic diversity, traditional load, and indigenous curricula, this book is an excellent resource for sociologists, policymakers, government officials, environmentalists, educators, records managers, professionals, researchers, scholars, academicians, and more. *Annual Report South Africa*. Department of Social Development, 2016.

Emerging Infectious Diseases, 2017-07. **What Politics?**, 2017-11-06. *What Politics? Youth and Political Engagement in Africa* examines the diverse experiences of being young in today's Africa. It offers new perspectives to the roles and positions young people take to change their life conditions both within and beyond the formal political structures and institutions. The contributors represent several social science disciplines and provide well-grounded qualitative analyses of young people's everyday engagements by critically examining dominant discourses of youth politics and ideology. Despite focusing on Africa,

the book is a collective effort to better understand what it is like to be young today and what the making of tomorrow's yesterday means for them in personal and political terms Contributors are Ehaab Abdou Abebaw Yirga Adamu Henni Alava Pivi Armila Randi Rønning Balsvik Jesper Bjarnesen and Bjørnsdatter Johnna Einarsdatter Tilo Grøtz Nanna Jordt Jørgensen Marko Kananen Sofia Laine Naydene de Lange Afifa Ltifi Ivo Mhike Claudia Mitchell Relebohile Moletsane Danai S Mupotsa Elina Oinas Henri Onodera Eija Ranta Mounir Saidani Mariko Sato Loubna H Skalli Tiina Sotkasiira Abdoulaye Sounaye Leena Suurp and Mulumebet Zenebe What Politics Youth and Political Engagement in Africa is now available in paperback for individual customers
