Mbeki and After Daryl Glaser, 2010-10-01 For nearly ten years indeed more if we include his period of influence under Mandela's presidency Thabo Mbeki bestrode South Africa's political stage Despite attempts by some in the new ANC leadership to airbrush out his role there can be little doubt that Mbeki was a seminal figure in South Africa's new democracy one who left a huge mark in many fields perhaps most controversially in state and party management economic policy public health intervention foreign affairs and race relations If we wish to understand the character and fate of post 1994 South Africa we must therefore ask What kind of political system economy and society has the former President bequeathed to the government of Jacob Zuma and to the citizens of South Africa generally This question is addressed head on here by a diverse range of analysts commentators and participants in the political process Amongst the specific questions they seek to answer What is Mbeki's legacy for patterns of inclusion and exclusion based on race class and gender How if at all did his presidency reshape relations within the state between the state and the ruling party and between the state and society How did he reposition South Africa on the continent and in the world This book will be of interest to anyone wishing to understand the current political landscape in South Africa and Mbeki's role in shaping it

Transformations of Rural Spaces in Mozambique Cecilia Navarra, Cristina Udelsmann Rodrigues, 2021-11-18 With contributions from both Mozambican and non Mozambican scholars of multi disciplinary backgrounds and approaches this book provides a range of new perspectives on how Mozambique has been characterized by profound changes in its rural communities and places Despite the persistence of poverty in Mozambique significant investments have been made in rural areas in extractive industry or agribusiness resulting in both the transformation of

these areas and a new set of tensions and conflicts related to land tenure and population resettlement Meanwhile the Mozambican rural landscape is one dominated by smallholders whose livelihoods depend on both farming and non farming activities and who are often extremely vulnerable to shocks and pressure over resources The emergence of new civil society organizations has led to clashes with in the interests of local political administrative and economic powers creating fresh social conflicts Transformations of the Rural Spaces in Mozambique examines the process of transformation across a range of settings from the impacts of large scale industries and the transformation of agriculture to relations between state and non state actors and issues related to land

Rules of Law and Laws of Ruling Franz von Benda-Beckmann, Keebet von Benda-Beckmann, 2016-04-08 Offering an anthropological perspective this volume explores the changing relations between law and governance examining how changes in the structure of governance affect the relative social significance of law within situations of legal pluralism The authors argue that there has been a re regulation rather than a de regulation propagated by a plurality of regulative authorities and this re regulation is accompanied by an increasing ideological dominance of rights talk and juridification of conflict Drawing on insights into such processes this volume explores the extent to which law is used both as a constitutive legitimation of governance and as the medium through which governance processes take place Highlighting some of the paradoxes and the unintended consequences of these regulating processes and the ensuing dynamics Rules of Law and Laws of Ruling will be a valuable resource for researchers and students working in the areas of legal anthropology and governance
