Security and Human Rights Benjamin J Goold, Liora Lazarus, 2019-09-05 This is the second edition of the acclaimed *Security and Human Rights* first published in

2007 Reconciling issues of security with a respect for fundamental human rights has become one of the key challenges facing governments throughout the world The first edition broke the disciplinary confines in which security was often analysed before and after the events of 11 September 2001 The second edition continues in this tradition presenting a collection of essays from leading academics and practitioners in the fields of criminal justice public law privacy law international law and critical social theory The collection offers genuinely multidisciplinary perspectives on the relationship between security and human rights In addition to exploring how the demands of security might be reconciled with the protection of established rights Security and Human Rights provides fresh insight into the broader legal and political challenges that lie ahead as states attempt to control crime prevent terrorism and protect their citizens The volume features a set of new essays that engage with the most pressing questions facing security and human rights in the twenty first century and is essential reading for all those working in the area

Disability, Health and Human Development Sophie Mitra,2017-09-05 This open access book introduces the human development model to define disability and map its links with health and wellbeing based on Sen s capability approach The author uses panel survey data with internationally comparable questions on disability for Ethiopia Malawi Tanzania and Uganda It presents evidence on the prevalence of disability and its strong and consistent association with multidimensional poverty mortality economic insecurity and deprivations in education morbidity and employment It shows that disability needs to be considered from multiple angles including aging gender health and poverty Ultimately this study makes a call for inclusion and prevention interventions as solutions to the deprivations associated with impairments and health conditions

Social Policy in Post-Apartheid South Africa Ndangwa Noyoo,2019-11-01 This book critically examines the current social policy in post apartheid South Africa and proposes an alternative social policy agenda to create a new development pathway for the country Taking social policy as a vehicle that will facilitate the creation of a new society altogether namely the Good Society the author argues for the adoption of policy that will socially re engineer South Africa The author shows how the policy tools and development interventions which were undertaken by the post apartheid state in driving South Africa s transformation agenda failed to emancipate many individuals families and communities from the cycle of intergenerational poverty and underdevelopment He contends that social policy interventions that foster the social re engineering of South African society must take place to untangle the inherited colonial apartheid social order This book includes comparative analyses on the Global South and Global North to present the ways in which countries such as post Second World War Great Britain and Sweden and post independence Zambia of the 1960s and 1970s were able to use social policy to create new societies altogether or places similar to the Good Society The conceptual and methodological issues that form the basis for this book reside in public policy making and the public good and will be of interest to scholars of social policy social development and South African society

Domains of Freedom Thembele Kepe,Melissa Levin,Bettina von Lieres,2016-09-12 After more than 20 years of freedom in South Africa we have to ask ourselves difficult questions are we

willing to perpetuate a lie search for facts or think wishfully Freedom has been enabled by apartheid s end but at the same time some of apartheid s key institutions and social relations are reproduced under the guise of democracy This collection of essays acknowledges the enormous expectations placed on the shoulders of the South African revolution to produce an alternative political regime in response to apartheid and global neo liberalism It does not lament the inability of South Africa s democracy to provide deeper freedoms or suggest that since it hasn t this is some form of betrayal Freedom is made possible and or limited by local political choices contemporary global conditions and the complexities of social change This book explores the multiplicity of spaces within which the dynamics of social change unfold and the complex ways in which power is produced and reproduced In this way it seeks to understand the often non linear practices through which alternative possibilities emerge the lengthy and often indirect ways in which new communities are imagined and new solidarities are built In this sense this book is not a collection of hope or despair Nor is it a book that seeks to situate itself between these two poles Instead it aims to read the present historically critically and politically and to offer insights into the ongoing iterative and often messy struggles for freedom
