[Hans Christian Andersen in American Literary Criticism of the Nineteenth Century](#) Herbert Rowland, 2020-11-03 In *Hans Christian Andersen in American Literary Criticism of the Nineteenth Century* Herbert Rowland argues that the literary criticism accompanying the publication of Hans Christian Andersen's works in the United States compares favorably in scope perceptiveness and chronological coverage with the few other national receptions of Andersen outside of Denmark Rowland contends that American commentators made it abundantly evident that in addition to his fairy tales Andersen wrote several novels travelogues and an autobiography which were all of more than common interest In the process Rowland shows that American commentators naturalized Andersen in the United States by confronting the sensationalism in the journalism and literature of the time with the perceived wholesomeness of Andersen's writing deploying his long fiction on both sides of the debate over the nature and relative value of the romance and the novel and drawing on three of his works to support their positions on slavery the Civil War and Reconstruction

Arbitrary Power William Keach, 2015-07-28 This book explores previously unexamined links between the arbitrary as articulated in linguistic theories on the one hand and in political discourse about power on the other In particular Willam Keach shows how Enlightenment conceptions of the arbitrary were contested and extended in British Romantic writing In doing so he offers a new paradigm for understanding the recurrent problem of verbal representation in Romantic writing and the disputes over stylistic performance during this period With clarity and force Keach reads these phenomena in relation to a rapidly shifting literary marketplace and to the social pressures in Britain generated by the French Revolution the Napoleonic Wars and the class antagonisms that culminated in the Peterloo Massacre The question of what it means to think of language or politics as arbitrary persists through postmodern thinking and this book advances an unfinished dialogue between Romantic culture and the critical techniques we currently use to analyze it Keach s intertwined linguistic and political account of arbitrary power culminates in a detailed textual analysis of the language of revolutionary violence Including substantial sections on Blake Wollstonecraft Wordsworth Coleridge Byron P B Shelley Keats and Anna Jameson Arbitrary Power will engage not only students and scholars of eighteenth and nineteenth century literature but also those interested in critical and linguistic theory and in social and political history

Against Self-Reliance William Hunting Howell, 2015-03-03 Individualism is arguably the most vital tenet of American national identity American cultural heroes tend to be mavericks and nonconformists and independence is the fulcrum of the American origin story But in the late eighteenth and early nineteenth centuries a number of American artists writers and educational philosophers cast imitation and

emulation as central to the linked projects of imagining the self and consolidating the nation Tracing continuities between literature material culture and pedagogical theory William Hunting Howell uncovers an America that celebrated the virtues of humility contingency and connection to a complex whole over ambition and distinction Against Self Reliance revalues and rethinks what it meant to be repetitive derivative or pointedly generic in the early republic and beyond Howell draws on such varied sources as Benjamin Franklin s programs for moral reform Phillis Wheatley s devotional poetry David Rittenhouse s coins and astronomical machines Benjamin Rush s psychological and political theory Susanna Rowson s schoolbooks and the novels of Charles Brockden Brown and Herman Melville to tease out patterns of dependence in early America With its incisive critique of America s storied heroic individualism Against Self Reliance argues that the arts of dependence were and are critical to the project of American independence General Prospectus (University of the Witwatersrand).
