Taylor,2020-10-26 No detailed description available for 1986 *Science Education in Context* Richard K. Coll,Neil Taylor,2019-02-18 This book presents an international perspective of the influence of educational context on science education The focus is on the interactions between curriculum development and implementation particularly in non Western and non English speaking contexts i e outside the UK USA Australia NZ etc An important and distinguishing feature of the book is that it draws upon the experiences and research from local experts from an extremely diverse cohort across the world 26 countries in total The book addresses topics such as curriculum development research or evaluation of an implemented curriculum discussion of pressures driving curriculum reform or implementation of new curricula e g technology or environmental education the influence of political cultural societal or religious mores on education governmental or ministerial drives for curriculum reform economic or other pressures driving curriculum reform the influence of external assessment regimes on curriculum and so on *School Development Through Teacher Research* Inger Eriksson,Mlana Osaki,2018-08-17 School Development through Teacher Research Lesson and Learning Studies in Sweden and Tanzania presents the results from a three year long joint research project conducted by educational researchers from Tanzania and Sweden Even though the country contexts differ in social economic as well as educational conditions including teacher education and classroom standards many recurrent education challenges are shared These include the tendency to make educational reforms with little or no input from professionals The new educational reforms in both countries put a much higher responsibility on teachers teachers must be able to organise teaching that enables all students to develop required abilities competencies Thus teachers need tools to develop knowledge that can contribute to their professional knowledge base With an overall interest in issues of teaching and action research this joint project aimed to use Lesson and Learning Study as models for developing and improving the quality of teaching and learning in schools The research project was realised through four case studies in each country with a focus on students development

of specific capabilities and values Science Vocational Skills Home and Consumer Studies English as second language and Mathematics in grades 6 7 Complementing the cases School Development through Teacher Research Lesson and Learning Studies in Sweden and Tanzania offers an introductory background to Lesson and Learning Studies as models for teacher driven research and school development The book is written to support teachers and teacher educators wishing to reflect about learning and the struggle of learners to discern various concepts principles and practices As well as those who genuinely wish to see serious learning take place rather than simply seeing content covered including curriculum designers and developers educational researchers educational supervisors and leaders and student teachers as well as students of pedagogy and didactics We dedicate the book to teacher educators teachers and school leaders who are seriously striving to enhance students learning and understanding in different subject areas What Makes Students Tick? Udoh Elijah Udom, 2014-09-29 The educational system is societys best ally and should not be allowed to break down Our objective in this study was to identify the causes of high dropout rates and low passion for learning among college students The common view that students are lazy or lacking interest in education is unfounded On the contrary we found that but for factors beyond their control most students would work hard to achieve their educational objectives To avoid the judgmental trap students were asked to identify the factors that would unlock their passion for learning The factors identified by the students are analyzed in this book It is hoped that students parents teachers and school authorities will find this book a light to their path Udoh Elijah Udom Students lose interest in education and drop out of school for a number of reasons Dr Udom rightly turned to us the students to find out the factors that would restore our confidence in the education system and make us enroll and remain in school till graduation I strongly recommend this book to my fellow students Joseph J Brown Student Our school system has experienced dramatic developments in recent decades including low motivation to learn among college students Dr Udoms book highlights the causes of students lack of passion for learning and offers recommendations for a sustainable recruitment and retention of students This book is one of the best that has been written on this topic and is strongly recommended as a reference material Dr William H Kraus associate professor Argosy University Nashville campus

International Handbook of Universities ,2010 Cambodia's China Strategy Chanborey Cheunboran, 2021-06-21 This book explores the tensions within Cambodia s foreign policy between a tight alignment with China on the one hand and Cambodia s commitment to the Association of the Southeast Asian Nations ASEAN as well as its delicate foreign policy diversification towards other major powers on the other hand It traces the long history of Cambodia s quest for survival from its bigger and historically antagonistic neighbours the Thai and the Vietnamese and its struggle for security and independence from the two neighbours and external major powers particularly the United States and China It discusses Cambodia s geopolitical predicaments deriving from its location of being sandwiched between powerful neighbours and limited strategic options available for the Kingdom The book also assesses recent developments in Cambodia s relations with

its neighbours and their implications for Cambodia's increasingly tight alignment with China in recent years. It considers the extent to which the ruling regime in Cambodia depends on strong relations with China for its legitimacy and survival and argues that there are risks and danger for Cambodia in moving towards an increasingly tight alignment with China.
