University Of Limpopo Closing Dates For 2015:

Thabo Mbeki Mark Gevisser, 2022-05-06 Hailed in the Times Literary Supplement as probably the finest piece of non fiction to come out of South Africa since the end of apartheid The Dream Deferred is back in print and updated with a brilliant new epilogue The prosperous Mbeki clan lost everything to apartheid Yet the family saw its favourite son Thabo rise to become president of South Africa in 1999 A decade later Mbeki was ousted by his own party and his legacy is bitterly contested particularly over his handling of the AIDS epidemic and the crisis in Zimbabwe Through the story of the Mbeki family award winning journalist Mark Gevisser tells the gripping tale of the last tumultuous century of South Africa life following the family's path to make sense of the liberation struggle and the future that South Africa has inherited At the centre of the story is Mbeki a visionary yet tragic figure who led South Africa to freedom but was not able to overcome the difficulties of his own dislocated life It is 15 years since Mbeki was unceremoniously dumped by the ANC giving rise to the wasted years under Jacob Zuma With the benefit of hindsight and as Mbeki reaches the age of 80 Gevisser examines the legacy of the man who succeeded Mandela essential reading for anyone intrigued by South Africa's complex philosopher king The Economist

Sustainable Education and Development—Clean Energy Clinton Aigbavboa, Wellington Thwala, Joseph N. Mojekwu, Lawrence Atepor, Emmanuel Adinyira, Gabriel Nani, Emmanuel Bamfo-Agyei, 2025-02-07 This book is Volume 1 of the proceedings of 2023 Sustainable Education and Development Research Conference This volume concentrates on papers in the area of clean energy Despite considerable progress more than 700 million people worldwide still lack access to electricity and around 2.4 billion people continue to use harmful and polluting fuels for cooking While efforts have been made to promote renewable energy and energy efficiency they have not been fast enough to achieve Sustainable Development Goal 7 Adding to the challenge the ongoing war in Ukraine has contributed to rising global energy prices and heightened energy insecurity in Europe In response to the energy crisis some European countries are planning to accelerate the transition to renewables and increase investments in clean energy and energy efficiency However others are considering a resurgence of coal which poses a risk to the overall green transition Between 2010 and 2020 the percentage of the global population with access to electricity increased from 83% to 91% with 1.3 billion people gaining access Nevertheless this leaves approximately 733 million people still without electricity and most of them reside in sub Saharan Africa Achieving universal access by 2030 the annual growth rate in access needs to accelerate from 0.5 percentage points to 0.9 percentage points necessitating significant efforts in low income fragile and conflict affected countries In 2020 69% of the global population had access to clean cooking fuels and

technologies While more than half of those without access to clean cooking fuels live in Asia the 20 countries with the lowest percentage of people having access to clean cooking were predominantly least developed countries in Africa The share of renewable sources in total final energy consumption reached 17.7% globally in 2019 just slightly higher than the figure for 2015 The electricity sector leads in the adoption of renewables accounting for 26.2% of total final energy consumption in 2019 while the heat and transport sectors have made limited progress Global primary energy intensity defined as global total energy supply per unit of GDP improved from 5.6 megajoules per dollar 2017 purchasing power parity in 2010 to 4.7 megajoules in 2019 However the rate of improvement 1.6% per year on average since 2015 falls short of the 3.2% annual rate needed to reach Sustainable Development Goal 7.3 International financial flows to support clean and renewable energy in developing countries reached 10.9 billion in 2019 a 23.6% decrease from 2018 This decline occurred even before the onset of the COVID 19 pandemic Over a longer five year moving average average annual commitments decreased for the first time since 2008 from 17.5 billion in 2014 to 16.6 billion in 2019 Although developing countries achieved a record of 245.7 watts per capita in installed renewable energy generating capacity in 2020 small island developing States least developed countries and landlocked developing countries have lagged behind It would take least developed countries and landlocked developing countries nearly 40 years and small island developing States almost 15 years to reach the same level of progress as the average developing country in 2020 The 2023 SEDRC conference titled Sustainable Development and Education aims to redefine the understanding of research in the continent's development and the role of researchers The conference focusses on applied research discussions and its dissemination Researchers from research institutions academicians postgraduate students politicians and industry representatives will be the primary audience for the conference proceedings

Border Culture Victor Konrad, Anne-Laure Amilhat Szary, 2022-12-29 This book introduces readers to the cultural imaginings of borders the in between spaces in which transnationalism collides with geopolitical cooperation and contestation Recent debates about the refugee crisis and the spread of the COVID 19 pandemic have politicized culture at and of borders like never before Border culture is no longer culture at the margins but rather culture at the heart of geopolitics flows and experience of the transnational world Increasingly culture and borders are everywhere yet nowhere In border spaces national narratives and counter narratives are tested and evaluated coming up against transnational culture This book provides an extensive and critical vision of border culture on the move drawing on numerous examples worldwide and a growing international literature across border and cultural studies It shows how border culture develops in the human imagination and manifests in human constructs of nation and state as well as in transnationalism By analyzing this new and expanding cultural geography of border landscapes the book shows the way to a fresh broader dialogue Exploring the nature and meaning of the intersection of border and culture this book will be an essential read for students and researchers across border studies geopolitics geography and cultural studies

Local Responses to Mine Closure in South Africa

Sethulego Matebesi, Lochner Marais, Verna Nel, 2024-02-12 This book investigates mine closure and local responses in South Africa linking dependencies and social disruption Mine closure presents a major challenge to the mining industry and government policymakers globally but particularly in the Global South South Africa is experiencing notable numbers of mine closures and this book explores the notion of social disruption a concept often applied to describe the effects of mine growth on communities but often neglecting the impact of mine closures The book begins with three theoretical chapters that discuss theory closure cost frameworks and policy development in South Africa It uses evolutionary governance theory to show how mining creates dependencies and how mining growth often blinds communities and governments to the likelihood of closure Too easily mining goes ahead with no concern for the possibility or indeed inevitability of eventual closure and how mining communities will cope These impacts are showcased through eight place based case studies from across South Africa one focusing on mine workers to demonstrate that mine closure causes significant social disruption This book will be of interest to students and scholars researching the social impacts of mining and the extractive industries social geography and sustainable development as well as policymakers and practitioners working with mine closure and social impact assessments

Sustainable soil fertility practices for smallholder farmers Cosmas Parwada, Hupenyu Allan Mupambwa, Ronald Mandumbu, Arnold Mashingaidze, 2023-06-14 **Religion and Intersex** Stephanie A. Budwey, 2022-08-25 This book considers the situation of intersex people who have faced erasure in the areas of science law culture and theology due to the assumption that all humans are either female or male Centered in interviews conducted with German intersex Christians this book argues that moving from a paradigm of sexual dimorphism to sexual polymorphism will help promote the full humanity and flourishing of intersex people by creating a world where intersex individuals are no longer coerced and or forced to undergo non consensual medically unnecessary treatment no longer experience human rights violations because of their lack of legal protection no longer feel inhuman and Other due to epistemic injustice that stems from socio cultural norms and stereotypes are no longer told they are not made in God s image as a result of a sexually dimorphic understanding of Genesis 1 27 and no longer feel excluded and invisible in worship services that do not recognize them This combination of the practical and the spiritual allows for a reconsideration of the medical treatment and pastoral care that should be available to intersex people This book will be helpful to those in the disciplines of science law culture and theology particularly those in gender and theological studies and those already in and studying for lay and ordained ministry **Coviability of Social**

and Ecological Systems: Reconnecting Mankind to the Biosphere in an Era of Global Change Olivier Barrière, Mohamed Behnassi, Gilbert David, Vincent Douzal, Mireille Fargette, Thérèse Libourel, Maud Loireau, Laurence Pascal, Catherine Prost, Voyner Ravena-Cañete, Frédérique Seyler, Serge Morand, 2019-03-12 This book considers the principle of sustainable development which is currently facing a growing environmental crisis A new mode of thinking and positioning the ecological imperative is the major input of this volume The prism of co viability is not the economics of political agencies

that carry the ideology of the dominant conventional economic schools but rather an opening of innovation perspectives through science This volume through its four parts more than 40 chapters and a hundred authors gives birth to a paradigm which crystallizes within a concept that will support in overcoming the ecological emergency deadlock *Higher Education Pathways* Paul Ashwin, M. Case, 2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues **Integrated Drought Management, Volume 2** Vijay P. Singh, Deepak Jhajharia, Rasoul Mirabbasi, Rohitashw Kumar, 2023-09-12 The second volume of this comprehensive global perspective on Integrated Drought Management is focused on drought modeling meteorological prediction and the use of remote sensing in assessing analyzing and monitoring drought It discusses risk management planning policy and societal impacts of drought such as water pricing water transfer water quality and crop insurance Through numerous case studies from India Iran Brazil the US Nepal and other countries that cover a broad range of topics and geographical regions this volume serves as a valuable resource for all professionals researchers and academics who want to advance their knowledge about droughts Features Provides a global perspective on drought prediction and management and a synthesis of the recent state of knowledge Covers a wide range of topics from essential concepts and advanced techniques for forecasting and modeling drought to societal impacts consequences and planning Presents numerous case studies with different management approaches from different regions and countries Addresses how climate change impacts drought the increasing challenges associated with managing drought decision making and policy implications Includes contributions from hundreds of experts from around the world Professionals researchers academics and postgraduate students with knowledge in environmental sciences ecology agriculture forestry hydrology water resources engineering and earth sciences as well as those interested in how climate change impacts drought management will gain new insights from the experts featured in this two volume handbook **The Last Elephants** Colin Bell, Don Pincock, 2019-03-01 The Africa wide Great Elephant Census of 2016 produced shocking findings a decimated elephant population whose numbers were continuing to plummet Elephants are killed on average every 15 20 minutes a situation that will see the final demise of these intelligent extraordinary animals in

less than three decades They are a species in crisis This magnificent book offers chapters written by the most prominent people in the realm of conservation and wildlife among them researchers conservationists film makers criminologists TV personalities and journalists Photographs have been selected from among Africa s best wildlife photographers and the Foreword is provided by Prince William It is hoped this book will create awareness of the devastating loss of elephant lives in Africa and stem the tide of poaching and hunting that it will inspire the delegates to CITES to make informed decisions to ensure that all loopholes in the ivory trade are closed and that countries receiving and using ivory both legal and poached primarily China Vietnam Laos and Japan ban and strenuously police its trade and use within their borders actively pursuing and arresting syndicate leaders driving the cruel poaching tsunami This book is also a tribute to the many people who work for the welfare of elephants particularly those who risk their lives for wildlife each day often for little or no pay in particular the field rangers and the anti poaching teams and to the many communities around Africa that have elected to work with elephants and not against them The Last Elephants is the title prophetic We hope not but the signs are worrying

Security and Conservation Rosaleen Duffy,2022-04-26 An exploration of the scale practical reality and future implications of the growing integration of biodiversity conservation with global security concerns There are few keener observers of international biodiversity conservation than Rosaleen Duffy With a ferocity of purpose she investigates the tenuous connection and nuances among illegal wildlife trade terrorism threats and national security Steven R Brechin Rutgers University New Brunswick Debates regarding environmental security risks have generally focused on climate change and geopolitical water conflicts Biodiversity conservation however is increasingly identified as a critical contributor to national and global security The illegal wildlife trade is often articulated as a driver of biodiversity losses and as a source of finance for organized crime networks armed groups and even terrorist networks Conservationists international organizations and national governments have raised concerns about convergence of wildlife trafficking with other serious offenses including theft fraud corruption drugs and human trafficking counterfeiting firearms smuggling and money laundering In Security and Conservation Rosaleen Duffy examines the scale practical reality and future implications of the growing integration of biodiversity conservation with global security concerns Duffy takes a political ecology approach to develop a deeper understanding of how and why wildlife conservation turned toward security oriented approaches to tackle the illegal wildlife trade The ^AOxford Handbook of the Archaeology and Anthropology of Rock Art Bruno David,Ian J.
