Tombe, 2017-09-28 The *South Sudan Skills Story* is an account about manpower and education development in South Sudan, a narrative that includes efforts exerted in attainment of the much needed workforce for fuelling the country's economy now fatally impacted by the ongoing internal strife. Prior to escalation of the armed conflict that broke out in December 2013, hardly four years after the country gained its sovereignty on July 9, 2011, the new nation was on course in setting up its new education system and basis of sustainable human development now shattered by the vicious war. The conflict has eroded the country's human potential through loss of life, skills wastage, and extreme brutalities perpetrated against citizens by the war drivers. The education quandary is compounded by displacement of over 3 million people from their homes and localities, a dire situation that has caused severe food insecurity affecting over 7.5 million people. With over 2 million children forced out of school, particularly in the most conflict affected regions of South Sudan, including over 1.4 million forced out of the country as refugees to neighbouring countries, it means that one in every three children in the country is out of school. The scale and magnitude of the unending human dispersal has severely curtailed South Sudan's ability to provide education to all its citizens. The once adopted slogan of bringing education to all in the country is now a far cry as the new nation heads to total

collapse if the conflict is not halted The South Sudan Skills Story urges the leaders of South Sudan who are proponents of the conflict to rise above self serving political cleavages to stop the war for peace so that all the citizens are availed the opportunity to realize their fullest potential for development of the country The narrative concludes that the people of this young nation will remain one of the most undereducated populations in the world as long as the legacy of war violence and impunity prevails in the country Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **Peacekeeping in Africa** Marco Jowell,2018-02-21 In recent decades African states have developed an impressive infrastructure for training their peacekeepers In addition peacekeeping peacebuilding and associated areas of conflict resolution have become significant areas of employment Marco Jowell has spent a decade working in peacekeeping training in East Africa initially as one of the foreign Technical Advisers at the Peace Support Operations PSO training centre in Kenya the International Peace Support Training Centre IPSTC and subsequently as a strategic adviser to the Rwanda Peace Academy Using first hand experience he considers how military forces from a variety of African states with great differences in history language and political systems and with militaries with different cultures and capabilities can conduct complicated multinational peacekeeping operations He shows how regional peacekeeping training centres provide an environment for African elites predominately military to interact with each other through shared training and experiences This process of interaction or socialisation improves skills but also encourages cohesion so that future African led missions will be managed by well trained officers who are comfortable and willing to work within a regional or Pan African framework Jowell shows that part of the aim of peacekeeping training centres is to foster a Pan African outward looking ideology or disposition as well as improving technical ability This book will be essential reading for all involved with African military and security studies and analysts of peacekeeping training and operations Afrika and Alemania Priscilla Layne,Michelle Stott James,Lisabeth Hock,2025-07-15 Afrika and Alemania explores the representation of Blackness in German speaking literary autobiographical and cinematic texts across two centuries By examining how different groups of women with access to German culture have depicted Africa Africans and the African diaspora the book challenges the assumption that all women will tell the same story Focusing on Black women non Black women of colour and white women it investigates how these diverse voices engage with and represent Blackness within a society shaped by racial hierarchies Part I analyses how Black German speaking women actively reshape and redefine Blackness in response to stereotypes upheld by white German society Part II explores how non Black women of colour navigate the complexities of othering while sometimes reproducing anti Black stereotypes while Part III discusses how white women s projections of fantasies about Africa often erase Black voices and render them invisible Offering a nuanced analysis of the intersections of race gender ethnicity and nationality Afrika and Alemania provides a vital framework for understanding Blackness within
