Jadranka Petrovic, 2015-06-26 International criminal adjudication together with the prosecution and appropriate punishment of offenders at a national level remains the most effective means of enforcing International Humanitarian Law. This book considers the various issues emanating from present day breaches of norms of International Humanitarian Law (IHL) and the question of how impunity for such breaches can be tackled. Honouring the work of Timothy McCormack, Professor of International Law at the University of Melbourne and a world renowned expert on IHL and International Criminal Law, contributors of the book explore the interplay between the rules governing accountability for violations of IHL and other areas of law that impact the prosecution of war crimes including international criminal law, human rights law, arms control law, constitutional law and national criminal law. In providing a contemporary consideration of the various issues emerging from present day breaches of norms of IHL, especially in light of growing interest in fragmentation and normative pluralism, this book will be of great use and interest to students and researchers in public international law, international law and conflict studies.

Education and Disability in the Global South Nidhi Singal, Paul Lynch, Shruti Taneja

Johansson, 2018-12-13 Education and Disability in the Global South brings together new and established researchers from a variety of disciplines to explore the complexities and dilemmas encountered in providing education to children and young people with disabilities in countries in South Asia and Africa. Applying a range of methodological, theoretical and conceptual frameworks across different levels of education systems from pre-school to higher education, the contributors examine not just the barriers but also the opportunities within the educational systems in order to make strong policy recommendations. Together, the chapters offer a comprehensive overview of a range of issues including a nuanced appreciation of the tensions between the local and global in relation to key developments in the field, critiquing a globalized notion of inclusive education as well as proposing new methodological advancements in taking the research agenda forward. Empirical insights are captured not just from the perspectives of educators but also through engaging with children and young people with disabilities who are uniquely powerful in providing insights for future developments.

Social Policy in Post-Apartheid

South Africa Ndangwa Noyoo, 2019-11-01 This book critically examines the current social policy in post-apartheid South Africa and proposes an alternative social policy agenda to create a new development pathway for the country. Taking social policy as a vehicle that will facilitate the creation of a new society altogether, namely the Good Society, the author argues for the adoption of policy that will socially re-engineer South Africa. The author shows how the policy tools and development interventions which were undertaken by the post-apartheid state in driving South Africa's transformation agenda failed to emancipate many individuals, families and communities from the cycle of intergenerational poverty and underdevelopment. He contends that social policy interventions that foster the social re-engineering of South African society must take place to untangle the inherited colonial apartheid social order. This book includes comparative analyses on the Global South and Global North to present the ways in which countries such as post-Second World War Great Britain and Sweden and post

independence Zambia of the 1960s and 1970s were able to use social policy to create new societies altogether or places similar to the Good Society The conceptual and methodological issues that form the basis for this book reside in public policy making and the public good and will be of interest to scholars of social policy social development and South African society
