Unodc Report On Human Trafficking:

Human Trafficking John Winterdyk, Benjamin Perrin, Philip Reichel, 2011-12-05 Human trafficking is a crime that undermines fundamental human rights and a broader sense of global order It is an atrocity that transcends borders with some regions known as exporters of trafficking victims and others recognized as destination countries Edited by three global experts and composed of the work of an esteemed panel of contributors *Ideology and the Fight Against Human Trafficking* Reyhan Atasü-Topcuoğlu, 2014-10-10 Human trafficking has become one of the most spoken of problems of our day and fighting it has grown into a multi million dollar project sector This book is about how we all come to name various exploitative migratory experiences human trafficking and how we build a consensus on how to counter it This book investigates counter trafficking as a transnational field and tries to show how connected stances against a global social problem are produced internationally in general and nationally in particular within the example of three countries which are defined with different positions according to the phenomenon Ukraine as a source country Turkey as a transit and destination country Germany as a destination country The book examines how power relations limit the language to propose and solve social problems in the example of human trafficking It shows the limits of scientific studies on the issue and the chasm between counter trafficking and its primary target group the trafficked people **Sex Trafficking** Jennifer Davidtz, Caroline M. Haskamp, Danielle H. Millen, Brittany Plombon, Giovanna Basilio, Tom D. Kennedy, 2022-08-09 This Brief proposes best practices for assessment and intervention with sex trafficking survivors rooted in the existing theory and practice literatures Based in current research and clinical practice these recommendations are embedded in the context of cultural sensitivity This volume provides a relevant practical and informative outline of sex trafficking associated legal aspects and best practices for mental health clinicians to aid in successful treatment of sex trafficking survivors Women's Global Health Patrick James, Lyn Boyd-Judson, 2013-12-26 For many women around the globe health has become the central intersection of the personal and the political women s bodies are the arena for policy debates about population poverty reproduction and morality Women s Global Health Norms and State Policies is a comprehensive assessment of health for women around the globe that will inform debates underway in a wide range of disciplines These fields include public health most obviously but also sociology anthropology and other disciplines This book will advance the interdisciplinary fields of ethics women s studies and international studies It answers several questions with implications for knowledge in the preceding fields along with relevance to policy Some of these complex questions include How do the laws and policies of a nation state affect women s health Is the state invested in these issues because women are seen to be bearers and nurturers of future citizens Or are there other concerns such as economic development human welfare or religious ideology that shape this engagement This book also examines the current and historical responsibilities of the state in addressing women s health issues and how these responsibilities can they be measured and improved upon Finally the book looks at how to best

approach the underlying ethical issues in practical and useful ways for women around the globe Scorecard Diplomacy Judith G. Kelley, 2017-05-02 What can the international community do when countries would rather ignore a thorny problem Scorecard Diplomacy shows that despite lacking traditional force public grades are potent symbols that can evoke countries concerns about their reputations and motivate them to address the problem The book develops an unconventional but careful argument about the growing phenomenon of such ratings and rankings It supports this by examining the United States foreign policy on human trafficking using a global survey of NGOs case studies thousands of diplomatic cables media stories 90 interviews worldwide and other documents All of this is gathered together in a format that walks the reader through the mechanisms of scorecard diplomacy including an assessment of the outcomes Scorecard Diplomacy speaks both to those keen to understand the pros and cons of US policy on human trafficking and to those interested in the central question of influence in international relations The book s companion website can be found at www.scorecarddiplomacy.org

Weak Links Stewart Patrick, 2011 Conventional wisdom holds that weak and failing states are the source of the world's most

pressing security threats After all the 9 11 attacks originated in an impoverished war ravaged country and transnational crime appears to flourish in weakly governed states However our assumptions about the threats posed by failing states are based on anecdotal arguments not on a systematic analysis of the connections between state failure and transnational security threats Analyzing terrorism transnational crime WMDs pandemic diseases and energy insecurity Stewart Patrick shows that while some global threats do emerge in fragile states most of their weaknesses create misery only for their own citizenry Moreover many threats originate farther up the chain in wealthier and more stable countries like Russia and Venezuela Weak Links will force policymakers to rethink what they assume about state failure and transnational insecurity
