and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them Drawing on two years of ethnographic fieldwork conducted in Belfast Evershed explores Ulster Loyalist commemoration of the Battle of the Somme its conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries He investigates how and why the myriad social political cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation

**The Political Economy of Universal Healthcare in Africa** Philip C. Aka, Hassan Wahab, Yvette M. Alex-Assensoh, 2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana's National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of healthcare as a human right Themes that animate the book's argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis

in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science *Hot Equations* Jesse S. Cohn,2024-04-23 Inspired by the new diversity of science fiction fantasy and horror in the twenty first century *Hot Equations Science Fantasy and the Radical Imagination on a Troubled Planet* confronts the kinds of literary and political realism that continue to suppress the radical imagination Alluding both to the ongoing climate catastrophe and to Tom Godwin s *The Cold Equations* that famous touchstone of hard science fiction *Hot Equations* reads the crises of our post normal moment via works that increasingly subvert genre containment and spill out into the public sphere Drawing on archives and contemporary theory author Jesse S Cohn argues that these imaginative works of science fiction fantasy and horror strike at the very foundations of modernity calling its basic assumptions into question They threaten the modern order with a simultaneously terrible and promising anarchy pointing to ways beyond the present medical ecological and political crises of pandemic climate change and rising global fascism Examining books ranging from well known titles like *The Hunger Games* and *The Caves of Steel* to newer works such as *Under the Pendulum Sun* and *The Stone Sky* Cohn investigates the ways in which science fiction fantasy and horror address contemporary politics social issues and more The cold equations that established normal life in the modern world may be in shambles Cohn suggests but a New Black Fantastic makes it possible for the radical imagination to glimpse viable possibilities on the other side of crisis *Ciottone's Disaster Medicine* Gregory R. *International Labour Migration in the Middle East and Asia* Kwen Fee Lian, Naomi Hosoda, Masako Ishii, 2019-08-22 The discourse on migration outcomes in the West has largely been dominated by issues of integration but it is more relevant to view immigration in non Western societies in relation to practices of exclusion and inclusion Exclusion refers to a situation in which individuals and groups are usually denied access to the goods services activities and resources associated with citizenship However this approach has been criticised in relation to gender issues which are very relevant to the situation of migrants The authors in this volume address this criticism Furthermore when framed within a North South discourse it may be potentially ethnocentric to assume that the experience of exclusion is cross culturally uniform Indeed work on migration issues has invariably been conducted within such a discourse The contributors go beyond this binary discourse of exclusion versus inclusion which has dominated migration research They examine the situation of migrants in the Middle East and Asia as one that encompasses both exclusion and inclusion addressing related concepts of empowerment ethnocracy the feminisation of migration and gendered geographies of power liberal constraint and multiculturalism individual agency migrant friendly discourses spaces of emancipation and spaces of insecurity The book highlights current research in the Arab Gulf states and examines multiculturalism in Asia more broadly It will be of particular interest to students and researchers in international labour migration studies in the Middle East and Asia
