Unscripted Engaging Life Beyond College:

A Day in the Life of a Student Affairs Educator Anne M. Hornak, Sarah M. Marshall, 2023-07-03 This book constitutes a collection of case studies that explore issues faced by new professionals in student affairs with the scenarios designed to develop ACPA NASPA Professional Competencies These cases provide opportunities to create meaningful learning experiences for courses training programs and the mentoring of new professionals giving them exposure to the kinds of dilemmas they will encounter as they assume their leadership roles or start out on supervisory positions The cases are derived from interviews with current student affairs professionals are based on real life dilemmas reflect contemporary issues on our college campuses and are designed to be easily used or adapted across all institutional types The cases cover the areas of advising and helping assessment evaluation and research equity diversity and inclusion ethical professional practice history values and philosophy human and organizational resources law policy and governance leadership personal foundations and student learning and development and vary in length to allow for multiple uses Shorter cases can be role played and discussed in leadership training workshops while longer cases can be used as take home assignments or debated during longer training sessions The book begins with advice on how to use the cases and concludes with general advice provided by current professionals in the field

A Day in the Life of a College Student Leader Sarah M. Marshall, Anne M. Hornak, 2023-07-03 Sarah Marshall and Anne Hornak have done a magnificent job exploring diverse contexts in which college students expand their individual leadership capacity and learn and practice engaging in relational leadership with others These cases are realistic because they were gathered from their interviews with real students engaging in leadership From whatever perspective students can learn that they are doing leadership when they work with others to address shared issues solve shared problems and work toward positive change from the Foreword by Susan R Komives This book presents over 230 case studies that reflect typical issues faced by undergraduate student leaders The scenarios cover the range of functional areas of student life These cases are intended for use by faculty and student affairs professionals as training tools for new student leaders who generally receive little preparation before assuming their positions Cases provide an opportunity for students to roleplay and discuss scenarios before they encounter potentially similar events in their daily lives as leaders engage students intensely in their learning as they work through the issues and problems and promote meaningful dialogue and discussion of relevant theory The cases are based on real life dilemmas and reflect both contemporary and historical campus issues They are derived from interviews with 110 undergraduates and 11 student affairs administrators from large public research institutions small privates community colleges and mid sized comprehensive schools The book begins with guidance on how to use case studies effectively and on how to incorporate theory in analyzing them The cases are then grouped into chapters each of which focuses on a particular type of student organization The cases vary in length to allow for multiple uses Shorter cases can be role played and discussed in leadership training workshops while longer cases can be

used as take home assignments or debated during longer training sessions The book concludes with general advice for student leaders To assist with the facilitation process the authors provide discussion questions to begin the analysis of each case The cases are written broadly enough to allow for a variety of possible solutions **Unscripted Spirituality** Luisa J. Gallagher-Stevens,2021-08-12 *Unscripted Spirituality Making Meaning of Leadership and Faith in College* provides a contemporary exploration of Christian spirituality and leadership among emerging adults Drawing from an ecumenical Wesleyan and Jesuit theological foundation the text highlights an experiential approach to education and Christian spiritual formation Through the lens of undergraduate students faith narratives the text considers strategies to impact emerging adults inward spiritual journey cognitive thinking and outward expression of faith In *Unscripted Spirituality* leadership and spirituality are explored primarily through the narratives of undergraduate Protestant and Catholic student leaders at Gonzaga University a Jesuit liberal arts institution Through exploring students leadership and spiritual life experiences this text reveals unique insights into the perspectives of undergraduate student leaders as they face difficult life challenges have intimate encounters with God and explore their leadership identity *Creating Wicked Students* Paul Hanstedt,2023-07-03 In *Creating Wicked Students* Paul Hanstedt argues that courses can and should be designed to present students with what are known as wicked problems because the skills of dealing with such knotty problems are what will best prepare them for life after college As the author puts it this book begins with the assumption that what we all want for our students is that they be capable of changing the world When a student leaves college we want them to enter the world not as drones participating mindlessly in activities to which they've been appointed but as thinking deliberative beings who add something to society There's a lot of talk in education these days about wicked problems problems that defy traditional expectations or knowledge problems that evolve over time Zika ISIS political discourse in the era of social media To prepare students for such wicked problems they need to have wicked competencies the ability to respond easily and on the fly to complex challenges Unfortunately a traditional education that focuses on content and skills often fails to achieve this sense of wickedness Students memorize for the test prepare for the paper practice the various algorithms over and over again but when the parameters or dynamics of the test or the paper or the equation change students are often at a loss for how to adjust This is a course design book centered on the idea that the goal in the college classroom in all classrooms all the time is to develop students who are not just loaded with content but capable of using that content in thoughtful deliberate ways to make the world a better place Achieving this goal requires a top to bottom reconsideration of courses including student learning goals text selection and course structure day to day pedagogies and assignment and project design *Creating Wicked Students* takes readers through each step of the process providing multiple examples at each stage while always encouraging instructors to consider concepts and exercises in light of their own courses and students *Closing the Opportunity Gap* Vijay Pendakur,2023-07-03 This book offers a novel and proven approach to the retention and success of underrepresented

students It advocates a strategic approach through which an institution sets clear goals and metrics and integrates the identity support work of cultural diversity centers with skill building through cohort activities enabling students to successfully navigate college graduate on time and transition to the world of work Underlying the process is an intersectional and identity conscious rather than identity centered framework that addresses the complexity of students assets and needs as they encounter the unfamiliar terrain of college In the current landscape of higher education colleges and universities normally divide their efforts between departments and programs that explicitly work on developing students identities and separate departments or programs that work on retaining and graduating higher risk students This book contends that the gap between cultural diversity centers and institutional retention efforts is both a missed opportunity and one that perpetuates the opportunity gap between students of color and low income students and their peers Identity consciousness the central framework of this book differs from an identity centric approach where the identity itself is the focus of the intervention For example a Latino men s program can be developed as an identity centered initiative if the outcomes of the program are all tied to a deeper or more complex understanding of one s Latino ness and or masculinity Alternately this same program can be an identity conscious student success program if it is designed from the ground up with the students racial and gender identities in mind but the intended outcomes are tied to student success such as term to term credit completion yearly persistence engagement in high impact practices or timely graduation Following the introductory chapter focused on framing how we understand risk and success in the academy the remaining chapters present programmatic interventions that have been tested and found effective for students of color working class college students and first generation students Each chapter opens with a student story to frame the problem outlines the key research that informs the program and offers sufficient descriptive information for staff or faculty considering implementing a similar identity conscious intervention on their campus The chapters conclude with a discussion of assessment and suggested Action Items as starting points

When the Cheering Stops Gay Culverhouse, 2021-10-07 A heartfelt account of the difficulties football players face after they leave the NFL The NFL is the nation s most popular sport but the athletes who make the league rich suffer greatly once they step off the field In *When the Cheering Stops* Life after the NFL players open up about the adversities they face after retirement Long after the lights have dimmed on their playing days NFL players face emotional distress physical injuries and cognitive decline often suffering on their own Personal interviews with former players reveal that many struggle with finances finding a second career addiction depression and violence While success stories are also shared the unfortunate truth is that there are far more players left hurt and broken after retirement Written by former Tampa Bay Buccaneers president and founder of the Retired Player Assistance program Gay Culverhouse this book provides a unique inside perspective on the NFL and the long term physical and emotional toll playing in the league takes on the players who make it great

The Way It Turned Out Herant Katchadourian, 2012-09-05 Spanning seven decades this memoir is an account of the life of Herant Katchadourian on three continents The Middle East Europe and the United States While the memoir is highly distinctive the issues the author focuses on have many features that are common with other people s lives such as the role of chance and the reconstruction of past ev

Thinking Outside the Box Gary R. Edgerton, Brian Geoffrey Rose, 2005-01-01 *Thinking Outside the Box* brings together some of the best and most challenging scholarship about TV genres exploring their genesis their functions and development and the interaction of disparate genres The authors argue that genre is a process rather than a static category and that it signifies much about the people who produce and watch the shows In addition to considering traditional genres such as sitcoms soap operas and talk shows the contributors explore new hybrids including reality programs teen oriented science fiction and quality dramas and examine how many of these shows have taken on a global reach Identifying historical continuities and envisioning possible trends this
