was a society of almost unprecedented economic equality and the founding generation saw this equality as essential for the preservation of America's republic. Over the next two centuries generations of Americans fought to sustain the economic preconditions for our constitutional system. But today with economic and political inequality on the rise, Sitaraman says Americans face a choice: Will we accept rising economic inequality and risk oligarchy, or will we rebuild the middle class and reclaim our republic? *The Crisis of the Middle Class Constitution* is a tour de force of history, philosophy, law, and politics. It makes a compelling case that inequality is more than just a moral or economic problem; it threatens the very core of our constitutional system.

Global Media Giants Benjamin Birkinbine, Rodrigo Gomez, Janet Wasko, 2016-07-01. *Global Media Giants* takes an in-depth look at how media corporate power works globally, regionally, and nationally, investigating the ways in which the largest and most powerful media corporations in the world wield power. Case studies examine not only some of the largest media corporations, News Corp, The Microsoft Corporation, in terms of revenues, but also media corporations that hold considerable power within national, regional, or geolinguistic contexts: Televisa, The Bertelsmann Group, Sony Corporation. Each chapter approaches a different corporation through the lens of economy, politics, and culture, giving students and scholars a thoughtful and data-driven guide with which to interrogate contemporary media industry power.
