Vaal Prospects 2016:

Freshwater Challenges of South Africa and its Upper Vaal River Anja du Plessis, 2017-02-07 This book promotes better understanding and awareness of South Africa significant water problems by describing the country's and especially the Upper Vaal River's water resources. It is a go-to book for students, professionals, and regular citizens when information is required regarding the country's and more specifically the Upper Vaal River's freshwater resources. It highlights the major problems and risks which need to be addressed and give a realistic and true representation of the current water affairs.

Rescaling municipal governance amidst political competition in Gauteng: Sedibeng's proposed re-demarcation Themba Mkhize, 2021-08-27 In 2011 the Gauteng Provincial Government proposed that Sedibeng a Category C district municipality located in the province should be restructured. Although the original proposal had anticipated that this would happen after the 2016 local elections the issue remains unresolved due largely to fierce party political opposition and vociferous protests against it on the ground. This Occasional Paper examines the dynamics, particularities, peculiarities, and challenges of re-demarcating the Gauteng City Region. While informed by technical reasons, the arguments for and against the merger have tended to gravitate more towards party political rationales for why the re-demarcation should or should not go ahead. Although these debates raise important merits and demerits for the proposal, they are difficult to disentangle from the interests of those whose fortunes would be changed by restructuring. In this environment, municipal demarcation risks being held hostage by party politics with stakeholders such as political parties using any means at their disposal to have things go their way, including by scapegoating the Municipal Demarcation Board (MDB). The case of Sedibeng presents important lessons about attempts to make post-transition local government and mechanisms for determining its configuration work for Gauteng. It also highlights the need for strengthening and revising demarcation-related legislation. How can we make sure that the MDB functions effectively with respect to its primary goals? [Global Economic Prospects, January 2018](#) World Bank Group, 2018-01-26 The global economy is in a broad-based cyclical recovery. Investment, manufacturing, and trade are on the rebound. Financing conditions are benign, monetary policies are generally accommodative, and the worst impacts of the recent commodity price collapse have begun to dissipate. However, the global economic outlook remains clouded by a number of risks. These include the possibility of financial market disruptions, rising protectionist sentiment, and heightened geopolitical tensions. Of particular concern is evidence of subdued productivity and slowing potential growth. In addition to discussing global and regional economic developments and prospects, this edition of *Global Economic Prospects* includes a chapter on the causes of the broad-based slowing of potential growth and suggests remedies. The report also contains Special Focus sections on the impact of the 2014-2016 oil price collapse and the relationship between education, demographics, and global inequality. *Global Economic Prospects* is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on emerging market and developing countries on a semiannual basis in January and June.

The January edition includes in depth analyses of topical policy challenges faced by these economies while the June edition contains shorter analytical pieces **Global Economic Prospects, January 2021** World Bank Group,2021-03-19 Although the global economy is emerging from the collapse triggered by COVID 19 the recovery is likely to be subdued and global GDP is projected to remain well below its pre pandemic trend for a prolonged period Several risks cloud the outlook including those related to the pandemic and to rapidly rising debt The pandemic has further diminished already weak growth prospects for the next decade Decisive policy actions will be critical in raising the likelihood of better growth outcomes while warding off worse ones Immediate priorities include supporting vulnerable groups and ensuring a prompt and widespread vaccination process to bring the pandemic under control Although macroeconomic policy support will continue to be important limited fiscal policy space amid high debt highlights the need for an ambitious reform agenda that bolsters growth prospects To address many of these challenges global cooperation will be key Global Economic Prospects is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on emerging market and developing economies on a semiannual basis in January and June The January edition includes in depth analyses of topical policy challenges faced by these economies while the June edition contains shorter analytical pieces **Wawarsing Reformed**

Dutch Church, Ulster County, New York, 1745-1883, New Prospect Reformed Dutch Church, Ulster County, New York, 1816-1886, Bloomington Dutch Reformed Church, Ulster County, New York, 1796-1859, Newburgh Circuit, Methodist Episcopal Church, 1789-1834 Jean D. Worden,1987 **Afrotropical Streams and Rivers** Tatenda

Dalu, Frank Masese,2024-11-09 The Afrotropical Streams and Rivers Structure Ecological Processes and Management is a comprehensive guide that provides assessment of major rivers and tributaries in Africa Unlike other books available the editors present a thorough study of geomorphological hydrological biological and ecological processes incorporating a range of plant and animal communities while considering implications of human communities that depend upon them This book edited by a diverse cohort of researchers and or scholars is intended as an educational and practical guide for graduate students researchers and scientists who focus on the biodiversity conservation and management policy issues of the African river systems Provides a comprehensive introduction to African freshwater rivers their biota and abiotic processes Contains unique case studies on African streams and rivers Organised around an interdisciplinary approach that covers the complex aspects of conservation and management of African river systems on the continent **Social Constructions of Water**

Quality in South Africa Suvania Naidoo,2022-05-04 This book details how the water quality of the Blesbokspruit River in Gauteng South Africa was socially constructed by stakeholders and key individuals in the context of acid mine drainage AMD and its treatment Social constructionism is used as the framing for this research to explain how water is intrinsically social Findings presented here show that stakeholders are aware that the changes in the physicality of the Blesbokspruit resulted from human interventions and varied uses of the water over the years Such knowledge among factors such as the historical

context of mining current coal mining flows and volumes of water technology used and processes followed information and communication and vested interests influence social constructions of the water quality What counts as the truth about water varies depending on the individual s perspective their purpose and their individual interests Further how one defines water quality influences what treatment processes are preferred in order to improve water quality The book explains why for example a treatment process meant to improve water quality gained a bad reputation by the public because of the South African government s silo approach The book explains how these social constructions are entrenched in power relations between stakeholders regarding AMD treatment and illustrates how power was used to influence decisions to improve the water quality of the Blesbokspruit The case presented in this book offers insights and recommendations for policymakers working in water governance including means to influence social constructions of water quality and ways to clarify roles and responsibilities in pursuit of improved cooperative government Register of products manufactured in South Africa ,1985

South African Mining & Engineering Journal ,1920 Urbanization and Industrialization for Africa's Transformation ,2017 The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization Urbanization is one of Africa mega trends with profound implications for the social economic environmental dimensions of growth and transformation Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa So far current policy narratives and frameworks on structural transformation and industrialization in Africa have largely failed to factor in the spatial and urban dimensions of industrialization and in particular the advantages presented by productivity enhancement and agglomeration effects generated by cities Yet the nexus between urbanization and industrialization is of particular relevance for Agenda 2063 and the 2030 Agenda on Sustainable Development Both agendas recognize urbanization as a critical factor for sustainable development It is also important to consider urbanization and industrialization in light of Africa s engagement with the Third United Nations Conference on Housing and Sustainable Urban Development Habitat III to be held in Quito Ecuador in October 2016 In this context African policy makers have clearly recognized urbanization as an engine of structural transformation for inclusive and sustainable growth **Disaster Studies** Janki Andharia,2020-03-25 This book covers several dimensions of disaster studies as an emerging discipline It is the inaugural book in the series Disaster Studies and Management and deals with questions such as Is disaster management a field of practice a profession or simply a new area of study Exploring intersectionalities the book also examines areas of research that could help enhance the discourse on disaster management from policy and practice perspectives revisiting conventional event centric approaches which are the basis for most writings on the subject Several case studies and comparative analyses reflect a critical reading of research and practice concerning disasters and their management The book offers valuable insights into various subjects including the

challenge of establishing inter and multi disciplinary teams within the academia involved in disaster studies and sociological and anthropological readings of post disaster memoryscapes Each of the contributors has an enduring interest in disaster studies thus enriching the book immensely This book will be of interest to all the students and scholars of disaster studies and disaster management as well as to practitioners and policymakers Spatial trends in Gauteng Richard Ballard,Christian Hamann,Ngaka Mosiane,2021-12-20 This Occasional Paper examines six spatial trends in Gauteng urban sprawl uneven densification residential building growth the reproduction of a property affordability gradient socio economic segregation and the reproduction of a mismatch between residential and economic areas These spatial trends are the physical manifestation of a remarkable variety of actors responding to a wide variety of opportunities incentives and disincentives and they have important implications for spatial transformation While it might be possible to name post apartheid urban ideals these six spatial trends underscore the disbursed nature of the energies producing urban space and the need to understand and work with these energies in directing spatial transformation Subsoil Constraints for Crop Production Teogenes Senna de Oliveira,Richard Willian Bell,2022-08-03 This book will address the major subsoil physical and chemical constraints and their implications to crop production Plant growth is often restricted by adverse physical and chemical properties of subsoils yet these limitations are not revealed by testing surface soils and hence their significance in crop management is often overlooked The major constraints can be physical or chemical Physical limitations such as poor nil subsoil structure sandy subsoils that do not provide adequate water or gravelly subsoils and etc On the other hand chemical constraints include acidity alkalinity high extractable Al or Mn low nutrient availability salts boron toxicity and pyritic subsoils Some of these constraints are inherent properties of the soil profile while others are induced by crop and soil management practices This aim of this book is to define the constraints and discuss amelioration practices and benefits for crop production This book will be of interest to readers involved with agriculture and soil sciences in laboratory applied or classroom settings *Increasing Resilience to Climate Variability and Change* Cecilia Tortajada,2016-08-18 This book highlights the role that both infrastructure and governance play in the context of resilience and adaptation to climate variability and change Eleven case studies analyze in depth impacts of extreme events in projects basins and regions in the Arid Americas Unites States and Mexico Australia Brazil China Egypt France Nepal Mexico Pakistan Turkey and South Africa They discuss the importance of infrastructure mainly reservoirs in adaptation strategies how planning and management aspects should improve in response to changing climatic economic social and environmental situations and what the management institutional and financial challenges would be for their implementation Governance aspects policies institutions and decision making and technical and knowledge limitations are a substantial part of the analyses The case studies argue that reservoirs are essential to build resilience contributing to adaptation to climate variability and change However that for them to be effective they need to be planned and managed within a governance framework that considers

long term perspectives and multi sector and multi level actor needs and perspectives **Multiple Stressors in River Ecosystems** Sergi Sabater,Arturo Elosegı,Ralf Ludwig,2018-08-30 Multiple Stressors in River Ecosystems Status Impacts and Prospects for the Future provides a comprehensive and current overview on the topic as written by leading river scientists who discuss the relevance of co occurring stressors for river ecosystems River ecosystems are subject to multiple stressors that threaten their ecological status and the ecosystem services they provide This book updates the reader s knowledge on the response and management of river ecosystems to multi stress situations occurring under global change Detailing the risk for biodiversity and functioning in a case study approach it provides insight into methodological issues also including the socioeconomic implications Presents a case study approach and geographic description on the relevance of multiple stressors on river ecosystems in different biomes Gives a uniquely integrated perspective on different stressors including their interactions and joint effects as opposed to the traditional one by one approach Compiles state of the art methods and technologies in monitoring modeling and analyzing river ecosystems under multiple stress conditions *The Mining Magazine* ,1914 *Encyclopedia of Cryptozoology* Michael Newton,2016-10-05 On every continent and in every nation animals unrecognized by modern science are reported on a daily basis People passionately pursue these creatures the name given to their field of study is cryptozoology Coined in the 1950s the term literally means the science of hidden animals When the International Society of Cryptozoology ISC was formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology [Internet of Things and Artificial Intelligence for Smart Environments](#) Hoe Tung Yew,Mazlina Mamat,Jamal Ahmad Dargham,Chung Seng Kheau,Ervin Gubin Mounq,2024-06-04 This book highlights the application of smart technologies that utilize the Internet of Things IoT and Artificial Intelligence AI to enhance efficiency and productivity across various industries It provides a comprehensive review of the latest IoT and AI developments including their applications opportunities and challenges in smart environments This book is a valuable resource for researchers engineers academics and students working on implementing smart technologies *The Wiley Blackwell Handbook of the Psychology of Positivity and Strengths-Based Approaches at Work* Lindsay G. Oades,Michael Steger,Antonelle Delle Fave,Jonathan Passmore,2017-01-17 A state of the art

psychological perspective on positivity and strengths based approaches at work This handbook makes a unique contribution to organizational psychology and HRM by providing comprehensive international coverage of the contemporary field of positivity and strengths based approaches at work It provides critical reviews of key topics such as resilience wellbeing hope motivation flow authenticity positive leadership and engagement drawing on the work of leading thinkers including Kim Cameron Shane Lopez Peter Clough and Robert Biswas Diener

Advances in Water Resources Engineering and Management Rafid AlKhaddar, Ram Karan Singh, Subashisa Dutta, Madhuri Kumari, 2019-06-26 This book comprises select papers presented at the International Conference on Trends and Recent Advances in Civil Engineering TRACE 2018 The book covers inter disciplinary research and applications in integrated water resource management river ecology irrigation system water pollution and treatment hydraulic structure and hydro informatics The topics on water resource management include technological intervention and solution for climate change impacts on water resources water security clean water to all sustainable water reuse flood risk assessment interlinking of rivers and hydro policy The contents of this book will be useful to researchers and professionals working in the field of water resource management and related policy making
